Vietnamese Peace Talks Proposed By 16 Nations

State Lined Up For Windfall Of 40 Million

LANSING (AP) — The House of Representatives voted the state an estimated \$40 million windfall Wednesday.

Passed 99-0 and rushed to Gov. George Romney for signature was a measure that would allow the state to collect life insurance death benefits, checks and wages that have gone unclaimed for seven years or more.

Assistant Atty. Gen. Irving Feldman, a specialist in such funds (called escheated funds), has estimated the state would collect \$30 million to \$40 million in the next two years. After that it would level off at about \$5 million to \$7 million a year, he said.

Backed By Court

The bill was prompted by a U.S. Supreme Court decision last month that such money goes to the last known state in which the unlocated recipient lived, rather than to the state in which the firm holding the funds had its main office.

The state has long collected such unclaimed funds and put them in the general fund treasury. But state law has barred collection of wages or death benefits.

"These firms have to pay out this money; they can't keep it," said Rep. William Boos, D-Saginaw, chairman of the House Judiciary Committee.

"So they put it into special bank accounts and collect the interest," he added.

"Five dollars here and \$10 there for thousands of workers who have gone off without collecting wages adds up," he added. "The same is true of group life insurance policies in which the beneficiary has never been located."

Bridge Proposal Fails

Even after these funds go to the state, they can be collected from the treasurer at any time by the true owner.

Both chambers acted swiftly on the measure because forms go out to firms holding such funds in April, Boos said. They must report their holdings in June.

Dzundzel, Senate majority leader, eyed the new income as a means of financing a senior citizens property tax exemption bill, amended and passed by the Senate Tuesday.

Rep. Russell Hellman, D-Dollar Bay, tried to amend the bill to earmark the funds to help pay off bonds on the \$100 million Mackinac Bridge and reduce the tolls. The amendment failed to get the two-thirds majority needed to pass.

SPENDING BOOSTED

LANSING (AP) — The House passed a supplemental appropriations bill Wednesday that would raise the cost of government by \$6.8 million for the current fiscal year.

Backers of the bill—which already is \$1.3 million higher than it was when it left the senate last month—fought off attempts to increase it by another \$10 million.

The bill goes back to the Senate. (Please Turn to Page 8, Col. 5)

Bus Bill Would Save Schools \$2.7 Million

LANSING (AP) — The \$15 million ceiling on state aid to help pay the cost of bus service for school children would be lifted under a bill introduced Wednesday by Rep. Joseph Swallow, R-Alpena.

Present law permits the state to pay 75 per cent of the cost to local school districts of bussing students living more than 1½ miles from their schools, not exceeding a \$15 million ceiling.

"In view of the increase in the number of school children in this state the \$15 million limitation is unrealistic," Swallow said.

Swallow said passage of the measure would save local school districts an estimated \$2.7 million.

Bomb Wrecks Negro House In Birmingham

BIRMINGHAM, Ala. (AP) — A dynamite bomb shattered a Negro home today and two other bombs were disarmed at the homes of Mayor Albert Boutwell and City Councilwoman Nina Miglionico.

Police cars were dispatched immediately to the homes of the eight other council members.

The bomb at Miss Miglionico's house was found on the second step of her front porch by her father when he came out to get the morning paper. Police said he reached inside the box containing the bomb and ripped out the timing mechanism.

Police who were dispatched to the mayor's house about a mile away found a bomb at the side of the sprawling brick structure. Officers disarmed it.

There was no warning, no threats of the bombing of the residence of Negro accountant T.L. Crowell across town from the mayor's home.

His son, Weymouth, 13, was treated for a cut hand. The frightened mother, an elementary school teacher, said he was more frightened than hurt.

Sukarno Talks With U.S. Envoy About Relations

JAKARTA, Indonesia (AP) — Indonesian President Sukarno met today with American presidential envoy Ellsworth Bunker to discuss the deterioration in relations between the two countries.

Emerging from a one hour meeting, Sukarno told newsmen: "We had a frank discussion in a friendly atmosphere." Bunker said the talk was "constructive" and a wide variety of subjects was discussed.

United States Given No Hint Of Cease-Fire

WASHINGTON (AP) — Representatives of 16 nonaligned governments meet today with Secretary of State Dean Rusk to appeal for Vietnamese peace negotiations with no strings attached.

Although the United States has kept the door open to possible negotiations, Washington officials said North Viet Nam has given no hint that it intends to abandon its assault on South Viet Nam. This, in the American view, is a prerequisite to any peace talks.

Ambassador Maxwell D. Taylor talked with newsmen Wednesday night after meeting with President Johnson, and gave no indication that any negotiations were in the offing.

Chou Demands Retreat

Asked by a reporter if he thought the air strikes on North Viet Nam were bringing the Hanoi regime any closer to negotiations, Taylor said: "I have no yardstick to measure the distance to the conference table."

The State Department had no comment on a letter written by William Warbey, a leftwing Laborite member of the British Parliament, to the London Times.

Warbey wrote that the North Vietnamese leadership is not demanding withdrawal of American troops as a condition for a cease-fire. He said President Ho Chi Minh told him 10 weeks ago in Hanoi that the only precondition to a conference is a cease-fire.

Although Johnson and top administration officials have declared regularly that the United States has no intention of pulling out of South Viet Nam, Red Chinese Premier Chou En-lai demanded such a withdrawal again Wednesday night.

Envoys Bring Appeal

Chou told an Algiers news conference that the only way to settle the future of Viet Nam is for the Americans to withdraw and allow the Vietnamese to decide their own course. He attacked what he called the "direct American aggression" against South Viet Nam.

The Italian government said Wednesday night it sympathizes with the American position in Viet Nam. But Italy's foreign minister, Amintore Fanfani, said his government wants all efforts to be made for a negotiated solution.

The nonaligned appeal which Rusk receives today was drafted in Belgrade, Yugoslavia, at a two-day conference in mid-March. It has been signed by 16 heads of government or chiefs of state.

The ambassadors of Afghanistan, Ethiopia, Ghana and Yugoslavia were scheduled to present the appeal at the State Department. Similar groups of ambassadors were to present the same appeal to the governments of the Soviet Union, Communist China, Britain, France, North Viet Nam, South Viet Nam, Poland and Canada. Also, it is to be handed to U.N. Secretary-General U Thant and to representatives of the National

Senior Citizens Tax Relief Bill Faces Rejection

LANSING (AP) — A Party battle was in prospect today as House Democratic leaders planned to reject the Senate's \$13.5 million, pared-down version of the House-approved senior citizens property tax exemption bill.

Despite Senate Democrats' claims the House would accept the Senate bill and indications Gov. George Romney would not veto that measure, House Democrats said they want to press for inclusion of benefits to renters.

"I haven't had a House Democrat tell me he wanted to vote for the Senate bill," said Speaker Joseph Kowalski, D-Detroit.

"We don't need a caucus on this—we decided our position earlier."

Yet Sen. John Bowman, D-Roseville, said a dozen House Democrats told him they "were relieved that the Senate cut the bill down."

The Senate bill would grant a property tax exemption on \$2,500 of assessed valuation on home-steads assessed at less than \$10,000 and owned by persons 65 or over who earn less than \$5,000 annually and have lived in Michigan seven years.

The House bill, estimated to cost from \$21 million to \$40 million, provided for state payments to retiree renters, reimbursing them for the portion of their rent that went to property taxes.

The Senate knocked out the renter clause because of a question whether it was technically constitutional. House leaders insist it is legal. The Senate resolved to create a committee to study renters' problems.

If the Senate bill is rejected by the House, a Senate-House conference committee would try to work out a compromise.

DeGaulle Loses Prestige With Bonn Politicians

BONN, Germany (AP) — French President Charles de Gaulle has lost ground with politicians in Bonn who had been working hard to get West Germany to go along with his policies.

The "Gaullists" are led by Konrad Adenauer, who has pictured the 1963 French-West German treaty as the greatest achievement of his long political career.

Adenauer openly criticized De Gaulle at a Christian Democratic party meeting over the weekend. The former chancellor said the French president had better do something fast to improve relations with his neighbors across the Rhine.

Middle Course Chosen

In earlier speeches, Adenauer invariably praised De Gaulle and urged Chancellor Ludwig Erhard to work more closely with him. Erhard belongs to the pro-American "Atlanticists," but he has tried to steer a middle course between his group and Adenauer's.

De Gaulle has handed West German policy a series of setbacks in recent months. Concessions made by the German side in the hope of getting him to consider their interests have not yielded results.

Last year, De Gaulle blocked the creation of the multilateral nuclear fleet, designed to give Germany some share in control over nuclear weapons. It was a bad prestige loss for Erhard, an all-out supporter of the fleet.

Despite this, the chancellor went to Rambouillet Jan. 19-20 to try to reconcile with De Gaulle. The Gaullists urged that this would have a good effect on Erhard's chances in this summer's election, which looks as if it will be close.

The general was beholden to Erhard for concessions on European Common Market grain prices which will benefit French farmers. At the Rambouillet meeting, De Gaulle reportedly agreed to give more support to efforts for German reunification, the No. 1 issue in this country; and to join in a call for a Common Market conference on political unity.

Supporters Squealed

Two weeks later, De Gaulle told a news conference that German reunification as a European problem could be solved only by the Europeans.

This was in line with his desire to lessen U.S. influence in Europe, but it was against the position on which West Germany places all its hopes. That is that the Big Four victors in World War II, most importantly the United States, are responsible for reunification.

West Germany's difficulties with De Gaulle have quieted the once vocal Gaullists. They find it harder to urge the government to follow him. But Adenauer and his hard core show no sign of abandoning the general altogether. He is an alternative to United States leadership, which they criticize as too little interested in Europe. However the Adenauer speech shows that De Gaulle no longer can count on blind support from the German Gaullists.

Strike Cripples Pan American

NEW YORK (AP) — A pilots' strike crippled the globe-girdling operations of Pan American Airways today.

Pan Am, the country's largest international airline, announced a shutdown Wednesday night.

Thousands of travelers were grounded. But many others were rebooked on other overseas carriers.

The pilots said they would continue to fly government-chartered flights to South Viet Nam, Germany and other points where the United States has military installations.

The AFL-CIO Air Line Pilots Association declared the strike in effect at 7 o'clock Wednesday night after contract negotiations have collapsed. The union said its Chicago headquarters that all flights that began before the strike call would continue to their scheduled destinations and no passenger would be stranded far from home.

The union has 1,528 members employed by Pan Am, which has a total of 26,500 employees around the world. The airline serves 17 American gateway cities and more than three-score foreign countries. It normally carries 14,000 passengers a day, with about 4,000 of them streaming in and out of Kennedy Airport here.

Highway Deaths In 1965 Curbed By Bad Weather

EAST LANSING (AP) — Adverse weather and driving conditions, cutting down on car speeds and traffic volumes, helped account for a sharp reduction in highway deaths during the first quarter of the year, state police reported today.

The provisional total for the first three months of the year was 384 deaths. This was a drop of 105 or 22 per cent from the 489 in the same period last year.

March was the fifth straight month to show a decrease from the same month a year earlier.

The March death toll of 117 was down 42 from the new high of 159 set during the month last year. February's count of 120 deaths was down 39 and the January total of 147 deaths was a decrease of 23.

Father Convicted In Baby Killing

ST. JOSEPH (AP) — Elmer I. Beck, 34, of suburban Riverside, was convicted of manslaughter Wednesday after a circuit court jury trial in the death of his 20-month-old son, Keith, last Sept. 20. An autopsy indicated the child died of internal injuries. Judge Philip A. Hadsell ordered Beck jailed to await sentencing.

Student Exodus To Florida Begins

By CHARLES L. WEST
Associated Press Writer

They started swarming to the beaches at Daytona and Fort Lauderdale the third week in March — vacationing collegians temporarily released from their books and pleasure-bent for sun and surf.

It was the annual spring pilgrimage from the campus which was expected to reach its peak Easter week.

This year there also was another growing exodus, a segment of the student population passing up the holiday fun for civil rights causes.

And "some actually plan to go home for the holidays," said a spokesman at Washington and Lee University.

Back With Suntans

The first 10,000 pilgrims to the Florida beaches came from the Carolinas, Georgia, Alabama, Tennessee and Kentucky. Many more thousands were expected.

"They'll be back with their suntans and I'll be very envious of them," said Ohio State Dean John Bonner.

Generally, the campuses of the South and East and Midwest pour out students toward Florida, Bermuda and Nassau; the West sends water skiers to the spring runoff on the Pecos River at Carlsbad, N.M., and surfers to Mazatlan and Guaymas in Mexico and to Los Angeles.

One group of University of Utah students took a fling at Las Vegas' gambling tables.

The word among the fraternity brothers at the University of Missouri was that West Palm

Beach would be the Florida spot this season. At the University of Virginia the "in" sites were Bermuda and Nassau.

Popular Spots Prepared

For Duke men the message was Nassau and at least three fraternities chartered boats to take several hundred students there.

The popular Daytona and Fort Lauderdale spots prepared for the usual thousands. The Daytona Beach City Council appropriated \$10,000 for entertainment — and to hire reserve policemen to handle an anticipated 80,000-100,000 youthful visitors.

Not rivaling the pleasure seekers in number was the

movement of students to join in civil rights projects.

These included Notre Dame undergraduates preparing to help rebuild a bombed Negro church in Mississippi and make a study of Chicago's slums for a tutoring program. There were Boston University students planning to demonstrate in Washington or participate in a voter registration project in Raleigh, N.C.

Some Methodist students at Indiana University prepared to travel to Mississippi and two dozen from the University of Kansas planned to join in civil rights projects in Jonesboro and Bogalusa, La.

Senate Leaders Plan Squeeze In School Aid Vote

WASHINGTON (AP) — Senate Democratic leaders are perfecting a squeeze play they hope may deliver the House-passed \$1.3-billion education aid bill intact to President Johnson next week.

But Southern opponents of the administration's voting-rights bill and critics of the school measure could upset this timing if they choose to offer controversial amendments and talk at length.

Senate Democratic Leader Mike Mansfield said in an interview he has tentative assurances that the Senate Labor and Public Welfare Committee will act on the bill next Tuesday. If it does, he said he will try to bring it up in the Senate on Wednesday.

Unless Southerners resort to delaying tactics, Mansfield said he believes the bill can be passed in three days. But he lacks any indication, he said, whether the voting-rights opponents may use this opportunity to stall consideration of the latter measure.

As this year's measure came out of the House, it carries indirect aid to parochial schools which might be pinpointed in court challenges on constitutional grounds. The administration

Snow Increases Flood Danger

By The Associated Press

Snow and snow mixed with rain fell on snow-covered areas in the northern Midwest today, increasing dangers of flooding in some areas.

Soaking rains continued during the night along the Southern California coast but tapered off in northern and central California and in northern Washington. The precipitation in Southern California was the heaviest of the winter season which was one of its driest in history.

Light showers continued in scattered sections in the Southeast but dry weather was reported in most other parts of the nation.

Up to three inches of snow fell in Park Falls, Wis., Marquette, Mich., and at Duluth, Minn. Similar amounts were indicated in other parts of the northern Great Lakes region. Snow measured three feet at Duluth.

Fairly cool weather prevailed in northern areas in the eastern half of the nation with lowest temperatures reported in northern New York.

Girl, 7, Missing At Benton Harbor

BENTON HARBOR (AP) — A 7-year-old girl who disappeared from her home Tuesday is still missing, Benton Harbor police said Wednesday.

After a house to house search had failed to find the girl police began searching nearby ponds.

Smells Over TV: April Fool Hoax

LONDON (AP) — Western Europe celebrated April Fool's Day today with traditional hoaxes. The British Broadcasting Corporation persuaded scores of television fans that it could transmit smells.

The BBC brought in a genuine professor from London University to demonstrate the new "smellovision."

He fed coffee beans and then onions into a complicated array of fake equipment, explaining that their scents would break down into molecules and be transmitted through the screen. "For best results," he said, "stand six feet away from your set and sniff."

He asked successful sniffers to report results by noon, the

traditional deadline for April Fool jokes.

Such is the power of television that sniffers soon were telephoning to report that the scents had come across. Some claimed the onions made their eyes water.

An elaborate joke in Stockholm threw thousands of homes into confusion. Printed leaflets, purportedly from the Swedish capital's gas and water company, told them the water would be cut off.

Housewives were told to fill bathtubs and all available cans with water to last them while "certain adjustments" were made to the water system.

After a torrent of calls from

angry customers the company issued an official denial, putting the blame on some unknown joker.

The Copenhagen newspaper Politiken reported with a straight face that the Danish Parliament had been thrown into an uproar by a government bill requiring all dogs to be painted white. The aim, it said, was road safety since white dogs are easier to see at night.

Nobody knows for sure how all the fooling started. The Encyclopedia Britannica says scholars have long disputed the custom's origins, though it probably is a survival from pagan celebrations of the spring equinox.

Weather

By The Associated Press

Escanaba and Vicinity — Lowest temperature last night 26, high Wednesday 35, high today 33. Partial clearing and colder tonight. Low 20, Friday mostly sunny and warmer. High 40, Saturday's outlook, mostly cloudy with rain likely, warmer.

Upper Peninsula—Cloudy with light snow or snow flurries this afternoon. Partial clearing with some snow flurries near Lake Superior and colder tonight, Friday partly cloudy and not much temperature change. Low tonight 5 to 15, high Friday 25 to 32.

Lower Michigan—Snow entire area, except snow mixed with rain near southern border this afternoon. Additional snow accumulations of around four inches east, central and south-east portions this afternoon. Cloudy with snow flurries tonight, diminishing or ending late tonight. Friday partly cloudy and not much temperature change. Low tonight 18 to 24, north, in the 20s south. High Friday 27 to 33 north, in the 30s south.

The sun sets today at 7:16 p. m., and rises Friday at 6:27 a. m.

Scenery Rates No. 1, But . . .

Circle Tours Of Lakes Big Help To U.P. Tourism

By JEAN WORTH

The importance to Upper Peninsula tourism of a scenic highway along the south shore of Lake Superior and of keeping U. P. scenery attractive are prime lessons of the second study of tourist travel in Michigan by the State Highway Department.

Its 1964 study report, released today, is the most comprehensive look into the origins, destinations and preferences of Michigan's tourists that has been made in the state.

It points the enormity of the tourist business by suggesting that the volume may already be close to the \$1 billion mark yearly in tourist spending.

It reveals that family income of one-third of the touring parties who visited the Highway Department's travel information centers last year was more than \$10,000 a year. A third of the visitors were under 18 and 64 per cent of the non-residents who visited the travel centers were repeat vacationers in Michigan.

"Beautiful Scenery"

The findings reported by John Murray, director of pub-

lic relations for the Highway Department, were based on 5,000 questionnaires and 11,000 field interviews with tourists.

When asked if anything influenced them to stay longer than they had expected, tourists most often answered "beautiful scenery." The most influential factor in deciding to vacation in Michigan was the recommendation of friends or relatives, with 59 per cent mentioning it.

Tourists came to Michigan in greatest numbers from the nearest states, Indiana, Illinois, Ohio and Wisconsin and 27 per cent were Michigan residents.

The study indicates that there are probably more tourist trips in Michigan each year than anyone has yet measured, but Highway Department traffic statisticians estimated that more than 7 million tourist trips by automobile were taken in Michigan in 1964 and that they involved 22.6 million people, counting the same person more than once if he made more than one trip.

U. P. Destinations

Spending on essential items for auto touring like food, lodging, transportation and recreation was estimated at more than \$850 million and adding spending for other items may mean that Michigan already is in the \$900 million bracket and may be near \$1 billion.

While spending was heaviest

(\$565 million) in June, July and August, it was also husky (\$289 million) in the rest of the year.

After "beautiful scenery" in inducement to make tourist linger were "local attractions" and "friendliness of local people."

The Upper Peninsula got a lot of its tourists not because they were coming here as a destination with which they were familiar, but because it is on circle tour routes around the Great Lakes and is a land bridge for Canadian travelers between Toronto and Winnipeg.

U. P. Counties

Upper Peninsula destinations of travelers as indicated at all the State's 7 Travel Centers were: Alger 1.08 per cent, Baraga 0.35, Chippewa 31.24, Delta 0.7, Dickinson 1.17, Gogebic 10.19, Houghton 0.62, Iron 0.66, Keweenaw 3.88, Luce 3.41, Mackinac 2.23, Marquette 1.68, Menominee 4.86, Ontonagon 1.76, and Schoolcraft 0.35.

Chippewa scored so high because besides an exit point for Canada-bound travelers it is on the route of persons on circle tours of Lake Superior or Lake Huron and also famous in its own right as site of the world-famous Soo Locks, a major tourist attraction most of the year.

Gogebic County, westernmost of Michigan's 83 counties, is named by travelers of all origins who make up the heavy westward traffic in the U. P. as the farthest point reached by them, Michigan Highway 28 and U. S. 2 converge here to funnel westbound traffic through Ironwood into Wisconsin.

Menominee County is a destination of a significant number of travelers because of the popularity of circle tours about Lake Michigan.

U. P. Tour Pattern

Dickinson County is named farthest point in Michigan by many non-resident vacationers who break off circle tours or sightseeing trips at Escanaba and take U. S. 2 across Dickinson County as far as Iron Mountain. Most of them are returning to origins in western Wisconsin, southern Minnesota and Iowa.

The study indicates that all these counties, except Chippewa, enjoy no more tourist spending than any other counties crossed by visitors on their tours of Michigan.

Besides these counties there are 7 other counties named as destinations by more than 1 per cent of vacation travelers and all but one are in the Upper Peninsula.

Cheboygan is the Lower Peninsula county and it's listed because its a terminal for Mackinac Island and the southern anchor of the Mackinac Bridge. It's destination for 7.2 per cent of vacationers. At the north end of the bridge, Mackinac County gets only 2.2 per cent of destinations and the sharp drop indicates that the \$3.75 Mackinac Bridge toll is a deterrent to further travel for many, particularly those with cars towing trailers.

Luce County benefits from Tahquamenon Falls, Keweenaw, Alger, Marquette and Ontonagon counties, listed by about 8 per cent of vacation travelers as their destination are all on the south shore of Lake Superior and blessed with its scenic wonders.

Lowest point in Australia is Lake Torrens, in South Australia, which is 25 feet above sea level.

BLOOD DONOR Clinton Groos, Escanaba businessman, is Delta County's only five gallon donor, a record he achieved with a donation to the Badger Blood Bank today. He is pictured receiving the five gallon donor pin from Mrs. E. Anderson, R. N. On Thursday the Blood Bank received a total of 120 pints—10 over the day's quota. (Daily Press Photo)

One Child In 10 Has Brain Injury, Society Is Told

Leona Dougherty, speech pathologist and faculty member at Bay de Noc Community College, told the Better Hearing and Speech Society Wednesday night that one of every 10 children may have some form of brain damage.

The figures, she said, were obtained by Dr. H. Myklebust, Chicago, nationally famous authority in the field of aphasia. The average had generally been thought to be one in 20.

Miss Dougherty stressed the need for better understanding of these children in our schools.

She described the usual aphasic child as hyperactive and having language difficulty, who soon becomes a mischief and behavior problem.

Miss Dougherty referred to the great strides made in this country by the Dr. Montessori methods of teaching pre-school aged children. These techniques are of benefit to all children, but are especially valuable to retarded, brain damaged, deaf and hard of hearing tots.

New methods of teaching speech handicapped children are continually coming up in the speech field.

She outlined causes of speech defects, or lack of speech as brain damage, deafness, cleft palate, and parental pressures and stressed the need for a better speech atmosphere in the home and for some training in speech for regular primary teachers.

Miss Dougherty also urged more young people and teachers to go into the speech field, reporting a current shortage of 20,000 speech teachers in this country.

Algeria, with an area of 920,000 square miles, is larger than Texas and Alaska combined. Its population numbers 11 million.

South African Killer Hanged

PRETORIA, South Africa (AP) — Frederick J. Harris, a white opponent of South Africa's racial laws, was hanged today for the death of a white woman killed in the bombing of the main Johannesburg railway station last year.

Harris, 27, a schoolteacher, had been chairman of South Africa's Nonracial Olympics Committee and campaigned publicly against apartheid in sports. His particular target was the exclusion of nonwhites from South African Olympic teams.

He admitted planting the bomb in the station concourse during an evening rush hour in

protest against the apartheid policy of racial segregation. The court rejected his plea of temporary insanity.

In the bombing an elderly white woman was fatally injured and several white adults and children were badly hurt.

Trepanier Heads Potato Growers

Dick Trepanier, Iron Mountain, was elected president of the Upper Peninsula Potato Growers Association when the association's board recently met in Marquette.

Trepanier will replace Arne Penttila of Crystal Falls. H. E. Butler of Crystal Falls was re-elected vice president and Dr. David Smith, Michigan State University crop scientist assigned to the District Extension office in Marquette, was re-elected secretary-treasurer for the organization.

The association's board agreed to stage a potato field day on Aug. 28. The field day tour

will include potato farms in Dickinson and Iron Counties.

The 1965 potato show is scheduled for Iron Mountain but no date has been established.

Peninsula Progress

Once upon a time the Upper Peninsula was inclined to regard any federal government activity here as desirable and an evidence of progress. Our sophistication has carried us beyond that point and we're now inclined to look at federal projects in light of our local self-interest, which is a healthy change and overdue.

This change was impressively demonstrated at the annual meeting of Forum On Resources of Upper Michigan in Escanaba Tuesday when the Watersmeet Township Planning Committee of Gogebic County sent a delegation to report on its study of the Sylvania Tract Project.

The Sylvania Tract is 18,000 acres of lakes and the finest virgin stand of northern hardwoods in North America in Gogebic County on the Wisconsin border. The U.S. Forest Service has proposed that it buy the tract (for about \$5 million) and add it to the Ottawa National Forest in the western Upper Peninsula as an outstanding recreation area in the forest. It would not be a "park," but a forest recreation area in which the timber would be selectively harvested.

FORUM praised the Watersmeet Township Planning Committee for an expert and professional examination of the Sylvania Project. The committee members aren't experts or professionals—they're rural supervisors and loggers and small businessmen—but they have devoted so much effort to an attempt to determine what should be done with Sylvania that they have performed a substantial public service.

Sylvania is owned by the L.P. Fischer Estate of Detroit and Brothers P.C. and R.L. Christiansen of Phelps, Wis., in an undivided estate with the Fischer ownership comprising three-quarters. The Fischer share is up for sale. The Christiansens have first chance to buy and establishment of a price by an offer will test their intentions. They have indicated that they will buy it for private development.

Rejection by a Congressional subcommittee recently of an appropriation for the U.S. Forest Service to buy the tract delays, at least, a test of disposition by that method for the time being. Meanwhile Watersmeet Township, which is most intimately involved in the future fortunes of Sylvania as its geographical site, is trying to make up its mind what would be best for it, for Gogebic County, the U.P. and the State? Should Sylvania become a federal forest playground or remain in private ownership for development as a private recreation center of homes, clubs, resorts, etc.?

The local Watersmeet Township planners know the area well and have calculated its timber resource and its commercial potential. It's growing 1,225,000 feet of sawtimber which (at \$20 a thousand) would bring \$25,000 a year to local governments in Forest Service payments of a quarter of stumpage receipts, plus about \$8,000 for pulpwood sales. There'd be trailer parking fees and concession earnings which would leave an estimated net of \$90,000 a year after payment of \$155,000 for tract labor.

This "self-sustaining" status, reason the local planners (the government's investment of millions would not be reckoned, only current spending) should make the federal government willing to consider payments in lieu of taxes to the local governments in the tract area and to its schools. Otherwise they would lose \$30,000 a year income if it went from private to government ownership.

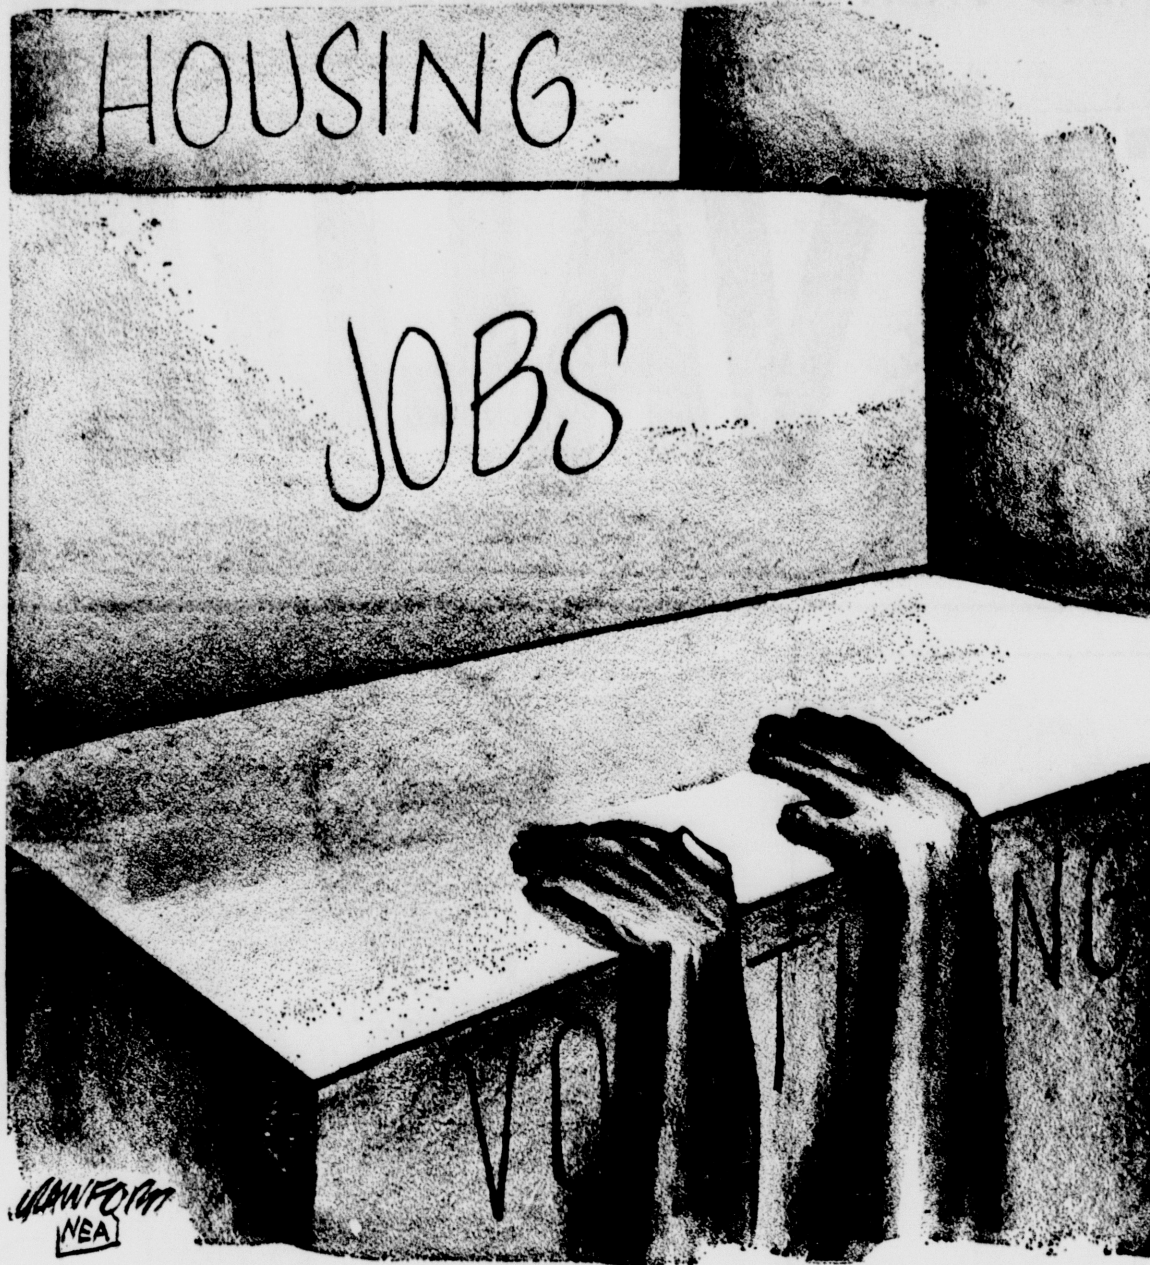

The Department of Agriculture, which operates the Forest Service, has proposed payments in lieu of taxes on a declining and expiring scale, as was done with the Grand Teton National Park tax problem. The Sylvania tax plan has 10 and 20 year options.

The Watersmeet planners tend to believe, said Supervisor Frank Basso, that private ownership cannot do what the Forest Service would do for Sylvania, because it would cost too much to make a private development profitable. For this reason, if the tax problem can be worked out, they tend to favor government acquisition. But if there's no government payment in lieu of taxes they're even wary of government acquisition and they're even wary of a tax aid program that would terminate in 10 or 20 years. They want a commission created which would review the tax loss situation periodically and remedy losses.

John Stranahn, executive director of GO-Inc., Ironwood economic development organization, took sharp issue with the suggestion that economics prevent private development of the Sylvania Tract. He said he had been over the area with developers with the means to finance it and that they said it could be amortized in 20 years.

Watersmeet Township's action sets a new dimension in the Upper Peninsula for the influence of local government in resource development.

Still a Long Way From Heaven

Letters To The Press

MUCC
The Lower Peninsula Michigan United Conservation Club officials showed their "colors" again at the Region 1 MUCC meeting in Escanaba March 14. President Myer and Vice President Strait voted against the motions of the local clubs, and defeated resolutions which were important to the local clubs of the Upper Peninsula.

Without their "no" votes these resolutions would have passed and been placed on the list for consideration at the state convention of the MUCC. Why do the Lower Michigan MUCC officials feel they are an authority on the problems of Upper Michigan?

The Upper Michigan sportsmen do not tell the Lower Michigan sportsmen how to run their area. This was just another unfortunate "move" and caused a further breach between the two groups. This is nothing new.

LAST YEAR many complaints from private land owners were due to trespassing and some land owners were treated rather roughly by hunters, one native here, hunting on his own property, was forced to give his deer to four gunmen who were trespassing. What can be done?

At the meeting in Escanaba, March 14, the dividing line was mentioned. Some day it could

be at the Straits, because there is always some hunter who will cause a friction between the two groups.

I know there are a lot of good sportsmen in Lower Michigan as well as the Upper Peninsula. Many Lower Michigan Sportsmen own land and hunting camps in the U. P. and they wish to continue hunting and cooperate with the sportsmen and land owners here. It is so easy to get acquainted with the natives here by visiting them and asking for permission to hunt on their property. Many will invite you in for a good cup of coffee without a fee.

But do not ever direct another hunter to hunt on private land just because you know the owner and are a good friend, let the hunter do the asking because the landowners wish to know who the hunters are. We the U. P. sportsmen will do our best to help all sportsmen although there are a few hunters who claim they cannot read signs. In this case all a landowner can do is teach such unfortunate hunters.

WHY ARE there so few U. P. clubs still members of the MUCC?

More and more clubs of the U. P. are joining the Northern Michigan Sportsmen Clubs as they drop out of the MUCC. Before long the Northern Michigan Sportsmen will be large enough to have a representative in Lansing. What is the cause for the change? Is it due to pressure as under dictatorship? I wish to have all sportsmen clubs in the U. P. to vote on the bounty proposal and other proposals they wish for.

Michigan-Out of Doors says Gov. George Romney will fight to discontinue the bounty. Gov. Romney got in office by a majority vote. We sportsmen of the Upper Peninsula could also win if we brought it to a vote.

So let's do so by voting, not fighting. All clubs in the U. P., including the few MUCC Clubs we have left in the U. P. should mail all proposals which have been voted on to two delegates from the U. P. who will be at the state convention.

Overhaul Needed

By BRUCE BLOSSAT

WASHINGTON — (NEA) — State legislatures in this country appear to be threatened as much by their own internal weaknesses as by the powerful pull of federal centralization.

They are shot through with flaws which lead some experts in state affairs to question their capacity to deal with this era's engulfing wave of new problems. Need for reform is becoming urgent.

With complexities spilling all over the landscape, 30 of the 50 state legislatures meet only every other year for fixed periods of 30 to 90 days.

In 34 of the 50 states the average yearly salary for legislators is a measly \$2,500. New Hampshire pays \$100 a man. A Maryland lawmaker figures his salary, measured against work time, comes to about 50 cents an hour. Here and there secretaries make more money than their legislative bosses.

Lawmaking at the state level is consequently a part-time job. According to one appraiser, only New York and California come close to giving the occupation decent status. Says he:

"The job should be a vocation, not an avocation."

The legislators' part-time status produces an often gravely harmful offshoot—conflict of interest between the public business and the lawmakers' private labors.

Expert judgment is that few states have the laws they need to regulate conflicts of interest.

Insufficient pay is far from the only sign of skimpy support for state legislators. They lack trained staff personnel to research issues properly—and even stenographic help to handle their mail.

Relatively few states provide them with private office space unless they happen to be committee chairmen. Usually the lawmakers use communal office space or operate from their chamber desks, the capitol corridors, even telephone booths.

This hardly seems the way to validate the old anti-Washington battle cry that "lawmakers at the state and local level can do a better job of handling the nation's problems as they arise in the field."

Even state legislative committees are cramped for space. The Oregon legislature has 40 committees but just 14 committee rooms.

Most of these state legislatures are victimized by decrepit state constitutions which have not been modernized for decades or longer.

Aside from the five states which were added to the flag in this century, only seven—Alabama, Georgia, Louisiana,

Michigan, Missouri, New Jersey and Virginia—have adopted new constitutions since 1900. Virginia's (1902) is the oldest of these. Michigan's (1964) the youngest and most thoroughly modern.

The constitutions of Vermont, New Hampshire and Massachusetts go back to the late 18th century. Another four fall in the first half of the 19th century.

One seasoned student of state matters observes: "It should not be thought that state legislators like the mess and squalor they are in. The record is full of their efforts to get out of it."

"But their performance and their image is so bad it destroys most efforts at reform. The public simply has no confidence in them."

The circle, then, is vicious. Voters frequently decline to approve longer and more regular sessions and other changes needed to upgrade legislatures. Their attitude: "If they never mess, we'd be better off."

Some progress is nevertheless occurring. Twenty legislatures meet annually now, as against just four a generation ago. Constitutional reform is being pushed in several states.

Yet the race "against Washington" demands improvement at a pace far faster than presently evident.

The Doctor Says:

Makes Victim Sick

By Dr. Wayne G. Brandstadt

Having hepatitis doesn't make you hep, but it makes you sick in other ways. Since there is as yet no vaccine or other specific treatment for this disease, the victim must get his symptoms treated and have good nursing care.

Complete and prolonged bed rest used to be prescribed but it has disadvantages. There is a growing tendency to encourage moderate activity for many conditions that used to be treated with rest. The results have been encouraging and the advantages are fewer bed sores, maintenance of a better state of nutrition and less weakness.

Getting the victim to eat anything at all is a problem in the early stages of the disease but lemonade with glucose can usually be taken several times a day. Intravenous feeding may be required for a few days but when the newer drugs to combat nausea are used that may not be necessary.

Alcohol in any form should be avoided for at least six months because it puts a strain on an already damaged liver.

Neomycin and other antibiotics are sometimes given because they reduce the population of certain bacteria in the intestinal tract which cause no strain on the normal liver. When the course of the disease appears to be unduly long or when relapses occur, synthetic cortisone-like drugs are given with apparent benefit. Recent studies have shown that other drugs such as 6-mercaptopurine and azathioprine are also helpful in chronic hepatitis.

In the final analysis, however, it is better to prevent this debilitating disease than to treat it. As is the case with other diseases transmitted by sewage, prevention is a matter of community sanitation and prompt reporting of cases to the local health authorities.

It Happened Ann Landers On This Date

Today in History
By The Associated Press
Today is Thursday, April 1, the 91st day of 1965. There are 274 days left in the year.

Today's highlight in history: On this date in 1865, one of the most important cavalry engagements of the Civil War was fought at Five Forks, Va. The defeat of the Confederates by Gen. Philip Sheridan's superior force led to the evacuation of Richmond the following day and in nine days the war was to end.

On this date In 1815, the German statesman, Otto von Bismarck, was born.

In 1898, the first auto sale is believed to have been made when Alexander Winton sold a one-cylinder Phaeton to Robert Allison of Port Carbon. It had a top speed of 10 miles an hour.

In 1914, civil government was inaugurated in the Panama Canal Zone.

In 1945, the U.S. 1st and 9th armies completed their encirclement of the Ruhr.

In 1946, Washington informed Cuba the United States would give up the base it held in Cuba during the war.

Ten years ago — Communist East Germany ordered a big increase in toll taxes for trucks entering West Berlin.

Five years ago—France conducted her second successful nuclear test explosion in the Sahara.

One year ago—Dr. Francois Duvalier added the title of lifetime president to his dictatorship of Haiti.

your family before, but there's one now. You.

Trying to stop at four drinks is not the answer. An alcoholic should not have even a teaspoon of liquor. Tell your parents you are not well and that you want to see a doctor. Confide in the doctor and he will guide you.

Alcoholism is a symptom of a deeper problem. You must learn through therapy why you are so unhappy that you must get bombed out of your mind every weekend.

Dear Ann Landers: This is for "Cornflower Blue" the woman who cautioned "ungrateful" children to be kind and attentive to their mothers "while there is still time."

I have a 73-year-old mother, but I can't go to see her more than once a week because she makes me sick. My mother was always domineering and ruthless. Her caustic tongue has caused me considerable anguish. We speak on the phone almost every day and every conversation has a needle in it for me.

My two brothers pay very little attention to mother but she has never felt the need to punish them. I have borne her hostility since childhood.

Every story has two sides and I hope you'll print mine for those who wish we could love our mothers, but we can't because they won't let us—UNLOVED

Dear Ann Landers: I have a problem and I need help from someone who doesn't know me. My dad is an important man in town and I don't want to disgrace anybody.

I'm a boy, 16. Every weekend I drink a lot, whether I am with other guys, with a date or by myself. Sometimes I don't even remember how I got home or what happened. I never drink during the week. My parents know I take a drink but they don't know how much drinking I do. Have you ever heard of a guy 16 drinking like this? I try to make a rule that I won't drink more than four at the most, but I can't follow the rule because I don't know when I lose control.

There has never been an alcoholic in our family and I would hate to be the first. Please help me. — SINKING FAST

Dear Sinking: Maybe there has never been an alcoholic in

Parents are people — they can be right and they can be wrong. To help understand their viewpoint and to promote harmony at home, write for ANN LANDERS' booklet, "How To Live With Your Parents," enclosing with your request 20c in coin and a long, self-addressed and stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped and self-addressed envelope.

What My Faith Means To Me

By KATHRYN TROTTER
All Saints Parish
Gladstone

Faith is something that everyone does not possess, even though it is essential for salvation. Because I have faith I am grateful.

One aspect that I like of our Catholic religion is our privilege to venerate Mary and the saints. It is true that we adore Christ alone, but He has given us these special aids to strengthen our faith and make the road to salvation easier. These saints were close to Christ and can help us to come closer to Him. We know that the saints can intervene for us, and often they help us in receiving a favor.

A more powerful figure to us is Mary. As she is Christ's mother, she was given this remarkable privilege. St. Antoninus said, "The prayer of the divine Mother partakes of the nature of a command. Therefore, it is impossible for her not to be heard. The prayers of Mary are the prayers of a mother, and are regarded by her Son, in a certain manner, as commands." Christ has of-

ten granted favors through Mary's intercession.

So we can see God's generosity to the human race. He gives us special help so we can obtain our salvation. Christ has given us His own mother, Mary, and because she is our Mother we have a great deal of love and devotion to her.

Questions And Answers

Q—Is the bite of the black widow spider fatal to man?

A—Its venom is rarely fatal, but destruction of the cells at the bite site may result in a fatal general infection.

Q—Who was the first world conqueror in history?

A—Alexander the Great. He led his armies almost to the end of what was then the civilized world.

Q—How many fossil birds have been found in North America?

A—More than 350 species.

They'll Do It Every Time

For Handicapped:

Gift Of \$1,500 To Aid Children

The Russell Newspapers today announced they are making a grant of \$1,500 to Bay Cliff Health Camp, Big Bay, which is operated for the care and rehabilitation of handicapped children.

Youngsters from throughout the Upper Peninsula attend Bay Cliff Health Camp.

Although members of the Russell Newspapers organization have made individual gifts over a period of years, this is the first time the group has made a direct contribution to Bay Cliff.

In making the announcement, a company spokesman

noted that some other businesses and industries already have made such contributions and expressed hope that other enterprises will make similar contributions commensurate with their financial capacity. He pointed out that these contributions are tax deductible.

The Russell Newspapers are The Mining Journal, the Iron Mountain News and the Escanaba Daily Press.

Delta County has in past years sent as high as seven and eight youngsters to Bay Cliff Health Camp, said Dr. Mary Cretens, director of the Delta-Menominee District Health Department.

"This year the quota for Delta County was cut to five children because of financial reasons," Dr. Cretens said. "Most of the children have physical handicaps. Some are selected because of the underprivileged situation."

Staff nurses of the Delta-Menominee District Health Department prepare the children for their summertime stay at the Health Camp, and Dr. Cretens is at Bay Cliff on opening day to give the children physical examinations.

Briefly Told

Barbershoppers meet this evening at 8:01 at Carpenters' Hall for regular rehearsal. All male singers are welcome. Lunch will be served.

An immunization clinic will be held Friday from 2 to 4 p. m. at the Delta County Building.

The Ford River PTA will meet at 7 p. m. today at Ford River School for a short business meeting and election of officers. The 4-H style review and talent show will be the program.

The Amvets will meet at 8 this evening in the clubrooms at 1311 N. 21st St.

North Star Lodge is meeting at 7:30 p. m. today at the Odd Fellows Hall.

Escanaba police have issued traffic court summons to Lois Ann Melchoir, 301 N. 11th St., for disobeying a traffic signal.

Waino A. Liuha, VFW assistant Department service officer, will be at the Escanaba City Hall from 10 a. m. to noon on Monday, April 12.

PRESIDENT Dr. Raymond Lloyd Smith, 48, will be inaugurated April 9 at Michigan Technological University, Houghton. A native of Maine, he holds degrees from the University of Alaska and from the University of Pennsylvania. He joined Michigan Tech faculty in 1959, and assumed the presidential post Jan. 1, succeeding Dr. J. R. Van Pelt. Dr. Van Pelt, is now serving as chancellor.

State Intangibles Tax Return Help Available Fridays

Gerald Babel, examiner for the Michigan Department of Revenue, will conduct a series of five "tax clinics" each Friday during April at the State Office Building to assist area residents in preparation of their intangibles tax returns.

First session will be tomorrow from 8 a. m. to noon.

Intangibles tax returns are due not later than April 30.

Intangible personal property subject to the tax includes all mortgages, land contracts, cash, postal savings accounts, accounts and notes receivable, corporate stocks, corporate bonds and other similar types of property.

All U. S. bonds are exempt from the tax and the tax on deposits in Michigan banks and building and loan associations, as well as stock in Michigan banks, is paid directly to the state by the banks or associations.

Babel said the tax law allows sufficient exemptions so that most people generally do not have to file returns.

Babel will be available in the State Office Building from 8 a. m. to noon April 2, 9, 16, 23 and 30th for consultation. Telephone number is ST 6-6334.

Trout Streams Blocked By Ice

Ice covers practically all of the trout streams flowing into Lake Superior that will be open to the early rainbow and brown trout fishing on Saturday, April 3, according to Michigan Department of Conservation District Offices at Baraga, Escanaba and Newberry.

Only two streams are reported partly open, a stretch of the Middle Branch of the Ontonagon River below Agate Falls and the Iron River near Big Bay in north Marquette County, where the road is plowed to the stream that produces an early run of rainbows.

Side roads are reported blocked with as high as 2 1/2 feet of snow. Ice on many of the streams runs to two feet thick with 30 inches reported on Lake Superior. Windrows of up to 20 feet of a mixture of ice and sand on Lake Superior blocks most of the mouths of the streams open to early trout fishing on April 3.

Conservation officers report this to be the worst early spring opening they have witnessed since working these areas. Some state that it would be hazardous to try fishing some of these streams at this time.

At least one week of real warm weather would be needed to partly open up these streams and improve fishing conditions.

Injured Girl, 7, Still Unconscious

Judith Ann Johnson, who a week ago today was hit by a car near her rural Wells Township home, has not regained consciousness since the accident, officials at St. Francis Hospital said this morning.

Judith, a first grader at Soo Hill school, is the daughter of Mr. and Mrs. Lloyd H. Johnson, Rte. 1, Escanaba.

She is still listed in "critical" condition at the hospital.

Liberation Front of the Communist guerrilla forces in South Viet Nam.

Role For Thant?

Asst. Secretary of State Harlan Cleveland suggested Wednesday night in a New York speech that Thant might play a peacemaking role if the two sides "have anything to say to each other." Cleveland also said the United Nations might be able to carry out supervisory duties in Viet Nam if and when the fighting ends.

After receiving the nonaligned appeal, Rusk meets with Taylor and Secretary of Defense Robert S. McNamara. Taylor said he would discuss specific proposals with them that he would present later to Johnson.

The President termed his conference with Taylor late Wednesday "a very profitable hour." It was their first talk since the ambassador returned Sunday from Saigon for what were described as routine consultations.

What Johnson and Taylor discussed was kept secret. After the meeting, the President sat for pictures with Taylor, escorted him to the White House exit, and told newsmen the ambassador would be dining with him Wednesday night and would be speaking to other officials, congressmen and reporters before his scheduled departure Saturday.

Taylor Not Quitting

Taylor said "I am for the policy the President approves."

While declining to disclose what specific steps for pressing the war against the Communists in Southeast Asia are under consideration, the former chairman of the Joint Chiefs of Staff told newsmen:

— His talk with Johnson had been "general in nature, more or less across the board."

— "I am very happy to say there is no truth" to reports that he wants to quit the Saigon post or that he will be named Central Intelligence Agency director. "I have no plans for resigning or anything," he added.

Bureau Warns Of Heat Wave

By DAVE ANDREWS

The Weather Bureau today predicted balmy breezes with clear skies and temperatures in the mid-sixties for the Escanaba area Friday.

A spokesman for the bureau said the dramatic change from recent cold and snow would be caused by a low pressure system clashing with a high pressure system, creating the rare phenomena of a medium pressure system.

The mercury is expected to begin its climb about 6:30 p. m. today, climaxing with a sun-tanish high of 67 degrees Friday afternoon.

The announcement caught Escanaba area residents unprepared.

Officials of the Escanaba Country Club, who received advance information about the break in the weather early this morning, huddled hurriedly, then announced the club would open Sunday morning. They said it is hoped their quick statement would relieve traffic congestion at the top of the club-house drive from members checking conditions on the course.

The Highland Golf Club will remain closed, however, because of the rapid run-off of water not being quite so rapid there.

Meanwhile, the U. S. Coast Guard announced that the cutter Mackinaw would be dispatched to Escanaba immediately to take advantage of the rapid deterioration of ice.

Retailers in downtown Escanaba reported a material shortage in new bathing suits as news of the warmer weather circulated.

By now you must realize this, too, is a lot of "hot air" April Fool.

Production of U. S. coins which contain silver — dimes, quarters, half-dollars and silver dollars—is now running at 7 billion a year against 1,500,000,000 only five years ago.

Former Senator Revives Fight On Income Tax

LANSING (AP) — Former state Sen. Carlton Morris, R-Kalamazoo, who fought a state income tax while in the legislature, said today he was filing articles of incorporation of a group to continue the fight.

Morris said he filed with the State Corporation and Securities Commission articles of incorporation for the Peoples No-

Income Tax Association, Inc. "The people remember that the federal income tax started out at two per cent," he said, reporting that requests for membership have been heavy. Contrary to most fiscal experts and state officials, Morris praised Michigan's present tax structure.

"Our present tax structure reacts moderately to changes in our economy, whereas the ups and downs of revenue from an income tax react violently," he said, adding:

"Income taxes go in just one direction—up."

Zing into spring! Corvair by Chevrolet

New Corvair Corsa Convertible and Sport Coupe top Corvair's 7-model lineup for '65—all with Body by Fisher.

The steering's crisper, the ride's flatter, the style's racier — even the grass looks a shade greener from behind the wheel of this new Corvair

You'll find a Corvair Corsa's instrument panel vastly more informative than an ordinary car's. But that's really only a fringe benefit of driving one.

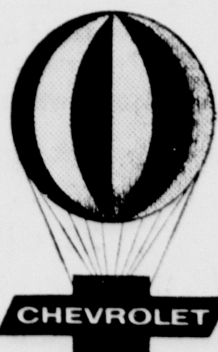

Because for all its finely calibrated instrumentation —tachometer, manifold pressure gauge, even an electric clock with a sweep second hand for rally buffs—the most important thing that happens when you get a Corsa out on the road doesn't register on the dash. It registers on you.

You feel it in the steering—crisp and precise—as you double back on a curve. In the flat riveted-to-the-road stability of the new fully independent

suspension. In the response of the rear engine (up to 180 hp available now in Corsa's Turbo-Charged version).

You don't have to wear a sports car cap and sun goggles to appreciate things like this. Or the clean international cut of Corvair's styling.

Drop down to your dealer's now—while the trading's extra good—and see for yourself. Look over the dashboard gadgetry all you like, but by all means get out on the road where you can really handle the merchandise. We'll guarantee spring will look greener, sun goggles or no.

Mead Sales Top \$500 Millions For First Time

DAYTON, O.—Mead Corp.'s first year in which sales exceeded \$500 million in paper and paper products is detailed in the company's 1964 annual report.

Record shipments of printing and writing papers, paperboard, shipping containers and packaging pushed Mead's sales to \$509 million in 1964. Sales in 1963 were \$474 million.

Earnings after taxes were also at an all-time dollar high of \$17 million. This came to \$3.03 per common share after payment of preferred dividends, the company's best performance since 1956. Mead earned \$15 million or \$2.62 per share in 1963.

Howard E. Whitaker and George H. Pringle, Mead's board chairman and president, respectively, reported that while reduced income taxes contributed to the earnings gain, "... the improvement in actual operating results due to improved volume and control of operating costs was substantial, too."

They noted that during the first half of the 1960's savings in operations have often been offset or canceled completely by advancing costs for materials or labor, "... and the fruits of efficiency lost through price erosion."

"Most Mead components achieved their major profit improvement goals by last spring and then continued to effect greater economies through the remaining months of the year. This was an outstanding element in our profit performance," Whitaker and Pringle reported.

Mead's 1964 capital spending rose to \$22.6 million compared to \$16.3 million in 1963. In addition, the company's share of capital expenditures at several of its affiliates brought the 1964 total to \$28.5 million.

The Mead expansion programs begun during 1964:

A joint venture with Noranda Mines, Ltd. of Canada to construct a pulp mill in British Columbia, scheduled for start-up in July 1966.

Half interest in a new containerboard mill to be built in Alabama;

A \$6.4 million investment in coating equipment at Mead's Chillicothe Paper Co. mill in Chillicothe, O.;

A fifth paper machine for the company's fine paper mill in Kingsport, Tenn.;

New shipping container plants in Albert Lea, Minn., and Spartanburg, S.C.;

Modernization of the Mead Containers plant in Cincinnati.

Current assets of Mead Corp. at the end of 1964 were \$128 million and current liabilities \$49 million, a ratio of 2.6 to 1. Taxes on income during 1964 were \$9 million compared to \$10 million in 1963.

Germfask

Newlyweds Here

A former resident and husband Mr. and Mrs. David Grant, newlyweds, returned to Ann Arbor where they are making their home after a visit here with Mrs. Grant's sister, Mrs. Robert Bowler, and her parents, Mr. and Mrs. Howard McEachern at Escanaba. Mrs. Grant is the former Jacqueline Cecile McEachern. She graduated with the class of 1960 from Escanaba High School and attended the University of Michigan at Ann Arbor. Mr. Grant graduated from high school at Flint and also attended the University of Michigan. They were married Feb. 8 at the Congregational Church at Ann Arbor.

Swisher-Frayer

Larry Swisher of Ann Arbor, son of Mrs. Emmett Crawn and Sandra Frayer, of Toledo, daughter of Mr. and Mrs. Albert Frayer of Curtice, Ohio, were married at Pinckney, Mich., March 13. Their attendants were a sister and brother-in-law of the bride, Mr. and Mrs. Herbert Trapp of Saline.

The bride wore a street-length dress of ivory lace over beige taffeta, with white hat and accessories. Her flowers were white and purple orchids. The matron of honor wore a navy blue street length dress with white accessories and her flowers were pink carnations. The reception was held at the home of the bridegroom's sister and husband Mr. and Mrs. Raymond Mannlein, Whitmore Lake. The couple will live in Ann Arbor.

Mr. and Mrs. Hubert Latsch attended a Square Dance Promenaders Club party at Escanaba Saturday night.

The Germfask Grange met at the home of Mr. and Mrs. James Burns Saturday night. Mrs. Berdella Decker was hostess. The next meeting will be held April 24 at the Township Hall.

Kerry and Sam Burns, Gloria and Carol Holbrook and Edna, Robert and Connie Smith went to Gladstone for a youth meeting of Germfask, Gulliver and Gladstone groups at The Reorganized Church of Jesus Christ of Latter Day Saints.

Cornell

PTC Sale

Cornell P. T. C. will have a rummage sale Monday, April 5, beginning at 8 p. m., at Cornell Town Hall.

School Program

Mr. and Mrs. Orville Peterson of Escanaba School System will show slides and talk on Pakistan at Cornell School April 8. The public is invited.

Dillion Leaving Cabinet Post

WASHINGTON (AP)—President Johnson accepted with reluctance and unstinting praise, the resignation of Secretary of the Treasury Douglas Dillon Wednesday.

The effective date will be when Henry Fowler, whom Johnson has named to succeed Dillon, assumes the post.

Dillon said in a letter to Johnson dated March 15 that after 12 years of government service he felt he must return to private life. But he also told the President he hoped to be called on again from time to time in the coming years if he can be of any help.

In a letter of acceptance, dated Tuesday, Johnson said he fully intended to call on Dillon again but gave no clue as to when or in what capacity.

Dillon is a Republican, a former ambassador to France, and undersecretary of state.

Seney

A daughter was born March 26 to T. Sgt. and Mrs. Patrick Sadler at the Arkansas AFB of the infant's father. The baby is their fifth child.

Mr. and Mrs. John Tobin and children of West Branch spent the weekend with his mother, Mrs. Marge Tobin.

Miss Gloria Johnson, a nurse at Newberry State Hospital, was the guest of Miss Verda Smeltzer.

Mrs. Lowell Maxson spent several days visiting in Sault Ste. Marie.

Mogul Shah Jahan, 17th-century emperor of India, sat on a throne valued at \$30 million.

Miss Rubinstein Is Dead At 94

NEW YORK (AP) — Helena Rubinstein, 94, cosmetics executive, died today.

She had worked at her Fifth Avenue office Monday, then became ill and was taken to New York Hospital Tuesday night.

She had been in the cosmetics business 63 years. Her firm now is a \$100-million annual business.

Her career began by accident in Melbourne, Australia, while she was visiting her uncle's ranch.

The Australian housewives, with faces dried and roughened by the climate, began to borrow the facial cream she had brought with her from her native Poland.

She sent home for more and soon realized that she was spending most of her time ad-

vising women on beauty care. So she opened her own salon in Melbourne in 1902. A year and a half later she left Australia with \$100,000 in profits.

She operated salons in London and Paris before coming to New York in 1915.

Miss Rubinstein was married twice. Her first husband was Edward Titus, an American she met in Australia and married in London in 1908. Her only immediate survivor, Roy Titus, board chairman of Helena Rubinstein, Inc., was born of this marriage. The Tituses were divorced in 1932.

Her second husband was Georgian Prince Artchil Gourjelli-Tekonia, who died the year after their 1937 marriage.

In an interview seven years ago, Miss Rubinstein was asked how she maintained her busy schedule.

"Keep healthy," she replied. "And always do first the things you most dislike to do. With them out of the way, you then find you have plenty of time left to do what you want."

Harden Resigns In NMU Dispute

LANSING (AP) — Dr. Edgar Harden, president of Northern Michigan University, has submitted his resignation in the wake of a dispute with the school's board of control but final action on his move has not been taken, the Associated Press learned today.

Board member Lincoln Frazier of Marquette followed by handing in his resignation to Gov. George Romney but final action there, too, is pending.

Frazier told the AP today his differences with Harden could best be classed as a difference of philosophy on general administration.

Harden declined comment as did board of control president Edwin George of Bloomfield Hills.

"I don't want him to resign from the university," said Frazier in reference to Harden. "I think probably the university would be better served if I resigned rather than he, but that hasn't been decided yet."

Harden turned in his quitting notice Friday at a board meeting of the Marquette institution.

Some reports indicated the resignation had already been withdrawn but Frazier said he has "heard nothing about a retraction."

Romney did not learn of the clash until Tuesday, when Frazier called him in Lansing.

Frazier said the governor "wanted a little background on this situation before he'd accept my resignation."

Frazier was appointed to Northern's first board of control Jan. 17, 1964. His term is scheduled to run through Dec. 31, 1970.

The board was established under the new State Constitution.

Frazier declined more specific comment on the nature of his differences, referring inquiries to Harden. He did say they have nothing to do with Northern's new core-course academic program announced recently.

Man Collapses, Dies In Jail

A 63-year-old Escanaba man collapsed and died in the Delta County Jail at 11:55 a.m. Wednesday about an hour and a half after he had been admitted.

He was Olof S. Nordlund, 812 1st Ave., S. He had been a resident of Escanaba for several years.

Mr. Nordlund was picked up for drunkenness by Escanaba police and taken to the county jail at about 10:30 a.m. Wednesday.

Sheriff's deputies said he was sitting up in his cell but didn't want anything to eat when lunch was distributed to prisoners. Deputies said when they returned to pick up plates, he had collapsed on the floor.

Sheriff's officers summoned an ambulance and attempted to revive the victim by giving him oxygen. They were unsuccessful. He was pronounced dead by Dr. Thomas McInerney, county medical examiner.

An autopsy was performed Friday afternoon by Dr. Roland E. Berry, pathologist at St. Francis Hospital, at the request of Delta County Prosecuting Attorney Nicholas P. Chapekis.

Results of the autopsy are incomplete, pending return of tests from state laboratories in Lansing.

Chapekis said the request for an autopsy was accepted practice when a person dies in custody. He said there was no indication of any foul play.

Mr. Nordlund was born Dec. 7, 1901 in Sweden and has worked most of his life as a lumberjack and woods worker. During World War II he served two and a half years with the U.S. Army and saw action in Africa and in the European Theatre from Italy to Germany. There are no known survivors.

Friends may call at the Degnan Funeral Home from 6 to 9:30 p.m. Friday. Funeral services will be held at 1:30 p.m. Saturday from the funeral home with the Rev. Walfrid Nelson officiating. Military rites will be conducted by the American Legion. Burial will be in the Legion plot in Lakeview Cemetery.

City To Close Steam Utility

Escanaba's municipal steam heating customers are being notified by letter that with the advent of a natural gas supply the steam utility will end operations within a couple years.

The letter to the approximately 100 city steam customers was signed by Frank Bourke, city controller.

"The introduction of natural gas into the community, whether municipally or privately distributed, means the discontinuance of the central steam plant, an inescapable fact which was one of the first conclusions of the Natural Gas feasibility study prepared by Black & Veatch.

"Through the years the steam utility has operated consistently at a loss, due principally to lack of sufficient load, and obviously would face much greater difficulty as the load declines. And such decline is inevitable in the face of the pronounced savings each steam customer can realize by converting to natural gas, which to the average customer will amount to approximately one-third," Bourke advised.

"The City Council, in awareness of the customer's need for ample time to convert his heating system, has decided to phase out the steam operations over a two-year period. Accordingly, subject only to a gas allocation by the Federal Power Commission, this letter will constitute official notice of the following action:

"The Municipal Steam Utility Plant will permanently cease operations at the close of the 1966-67 heating season, or approximately June 15, 1967. This is an action that, as stated, is made necessary by the economics of the situation, and will not be affected by the outcome of the election on the sale of the gas system.

"As a matter of practical fact, the reasons for elimination of the Steam Plant will be even more compelling if the gas system sale is voted down, as the City would then be faced with economic paradox of needing the steam customers as gas customers, and vice-versa," Bourke reported.

"As is true of the entire study of the natural gas matter, considerable thought was given to the problem of the steam customer, and every conceivable alternate to this final decision was considered and found feasible. The decision is one which, in the judgment of the City, is in the best interests of all the citizens, and we are hopeful it will be considered in that light."

State Lined Up For Windfall Of 40 Million

(Continued from Page 1)

ate—where it started out at \$3.9 million — for action on House amendments.

Rep. Einar Erlandsen, D-Escanaba, chairman of the House Ways and Means Committee, asked the House to demand a conference committee to work out differences if they are not approved in Senate action.

Included are an additional \$500,000 to run the Senate for the rest of the year, and \$750,000 for the House.

One Year Later--- Alaska Remembers

On Good Friday last year, March 27, catastrophe struck in Alaska. Severe earthquakes and tidal waves wracked coastal towns and cities. Thanks to their own energies and the help of the U.S. Army Corps of Engineers, the scenes of destruction shown in these pictures, taken as the cleaning up started, have largely been erased. Restoration began the very next morning and has continued every day since, despite the scourging of the workers by icy winter winds for the past six months. Just picking up the debris since the night of the 'quake involved 2,000 men working all through April at a cost of about \$3,500,000. Rebuilding was preceded by a three-month study of the "crazy clays," the villains in the landslides that tore the heart out of fine residential sections of Anchorage. One result of the soils study is the decision to move the entire town of Valdez, of gold rush fame, to a new, more stable location.

The grounds of the Kodiak public school became a "port" for fishing boats. They were hurled there by 40-foot waves generated by the earthquake.

Mother Earth's convulsions threw some fancy curves into the steel rails of the Alaska Railroad.

Residents of Anchorage, dispossessed by the 'quake, walk past what had been a new six-story building before the quivering earth shook it down.

GLADSTONE

Rock

Game Saturday

Rock school and Perkins school personnel will meet in a basketball game at the Perkins school gym Saturday, April 3, at 8 p. m. for the benefit of the athletic fund. On the Rock team will be Clifford Carlson, Albert Weldum, Ahti Waak, Wayne Anderson, Gene DeKeyser, Vic Mankiewicz and Roman Gill.

Birth

Mr. and Mrs. Paul Roine of Chicago are parents of their first son, Daniel Paul, born March 13. The infant weighed 10 pounds at birth. He has one stepbrother and two sisters. The mother is the former Juanita Booth. The infant is the first grandson of Mrs. Victor Freeman of Rock, who visited the family for a month.

Lorna Cameron On Dean's List

ALBION, Mich.—Lorna Cameron, daughter of Mr. and Mrs. Wallace Cameron, 602 S. 11th St., Gladstone, has been named to the dean's list at Albion College for attainment of a 2.3 or better scholastic average (3.0 equals A) for the first semester of 1964-65. Miss Cameron is a sophomore at Albion.

Guest Speaker

Pastor Mark Wickstrom, manager of Luther Home in Marinette, will be the guest speaker at the Lutheran Church Women's meeting Thursday at 8 p. m. His talk will be illustrated with slides showing the new addition to the home. Special music will be provided. Invited guests are the LCW members of Rock, Perkins and Rapid River. Hostesses are Mmes. Clarence Cartwright, Alger Strom, Allen Erickson and Joseph Thibeault.

Record Crowd At Ensigners Achievement

ENSIGN—Ensigners 4-H Local Achievement Show attracted 136 persons Saturday night at the Ensign Township Hall. Displays showing the work of over 100 individual projects included, sewing, knitting, handicraft, gun safety, auto care, and personal improvement. The hall was decorated with a springtime theme displaying a huge flower on the stage's back wall surrounded by smaller flowers and butterflies. A small picket fence covered with colorful flowers was arranged on the stage. The decorating was done by Sandra Gibbons and Bonnie Hansen.

Cindy Safford, mistress of ceremonies gave the welcome address. Special recognition was made of Ingrid Tervonen, Delta County home economist, and Larry Bradford, Delta County home extension agent.

Mrs. Safford presented the club crowns to queen Sandra Gibbons and king Pat Gibbons who will represent Ensigners at County Achievement Saturday, April 3.

The style revue was narrated by Sue Sundberg and Mrs. Sundberg with piano accompaniment furnished by Jane Ann LaCrosse and Linda Norlander. The revue showed fashions made by 22 girls in young, junior and senior miss. "Share The Fun" talent show numbers were introduced.

Mike Rasmussen spoke on the club's auto safety care study and Thomas Safford and Stanley Dominick, gun safety leaders, told of their project aims. Lunch was served by Mesdames Ossie Hansen, Henry Lundberg, Glen Lundin and Harold Lundquist. Donna Rasmussen was lunch chairman.

Moscow's centralized ambulance service answers 450 to 600 emergency calls a day from a total city population of 6 million.

Isabella

Farm Bureau
Members of Delta County Farm Bureau Board met Monday evening at the John Lester home in Garden. Hugo Kivi, district representative, was present. Clayton Ford served as chairman and reports were given by Mrs. Albert Whybrew, Mrs. Harvey Sundin and Albert Whybrew. Mel Taylor is a new member of the board.

Mrs. Henry Turan has been released from Schoolcraft Memorial Hospital and is recuperating at home.

Twelve-Belles

Mrs. William Donnell entertained the Twelve-Belles Bungalow club at her home Tuesday with prizes awarded to Mrs. Arthur Larcheide, Mrs. William French and Mrs. William Neadeu. The special award went to Mrs. Raymond Neadeu. The next meeting will be at the home of Mrs. Arthur Larcheide.

Femininity Is Keynote Of Dress-Up Ensembles In Fashion Show

Beware Of Those 'Fancy Plants,' Gardeners Told

It's open season on home gardeners again for high pressure salesmen and mail order advertisers using fancy names for ordinary shrubs and plants and making exaggerated claims for their plant material.

To keep from being taken in by these cheats and frauds home owners are urged to "Ask Your Nurseryman First" by Attorney General Frank Kelley, Agricultural Director George S. McIntyre and the Michigan Association of Nurserymen.

Beware of glowing word descriptions and faked photographs of climbing vine peaches, giant climbing strawberries, 1,000 giant red roses on a single bush (unknown to horticulturists), flowering shade trees that grow roof high in a single year, including the "Flowering Maple" that turns out to be the common silver maple with most inconspicuous blooms, etc., they advise.

Purchasers who deal with established local merchants can see what they are buying and are not misled by photographs or lurid verbal pictures.

"One cannot expect to get high quality stock at ridiculously low prices," said C. A. Boyer, chief of the plant industry division of the Department of Agriculture. "Purchasers should always demand a certificate of inspection with the stock as their assurance that it has passed inspection for insects and disease."

Local nurserymen usually

Births

FRANKS — Mr. and Mrs. Donald L. Franks, 1215 11th Ave. S., are the parents of a son, born today, April 1, at 3:56 a. m. at St. Francis Hospital. The infant weighed 9 pounds and 1 ounce. The mother is the former Madelyn Jensen.

LASNOSKI — Mr. and Mrs. John J. Lasnoski Jr., 805 Minnesota Ave., Gladstone, are the parents of a son, born today, April 1, at 5:06 a. m. at St. Francis Hospital. The infant, whose name is Keith Donald, weighed 7 pounds and 6 ounces. Mrs. Lasnoski was Barbara Carlson.

Highland Officers Meet April 8

A meeting of officers of the Highland Golf Club Women's Association has been called by Mrs. Francis Rodgers, chairman, for Thursday, April 8, at 8 p. m. at the Chamber of Commerce Building. Plans for the new season will be made at the meeting.

are familiar with local conditions and the varieties likely to do well in an area, and their advice can be helpful.

"There are some reliable mail order houses but there is no substitute for the expert service on selection, planting and care of the plant that your local nurseryman can give you," said M.A.N. Executive Secretary Victor C. Beresford.

Shriners Charity Ball Is Planned for May 1

The annual Shrine Charity Ball, sponsored by the Delta Shrine Club, will be held May 1 at The Terrace it was announced today.

The evening will feature a late buffet lunch and dancing to the music of Manley Anderson's Orchestra. The public is

most welcome and urged to attend.

As in past years, all proceeds will go to the Crippled Children's Fund.

Shrine Hospitals, for crippled children, are the charity work of the Shrine Clubs of North America. It is the Shriners belief that happiness and well-being is something to be shared and they develop this belief by sponsoring these hospitals which underprivileged children of any race, color or creed may receive treatment, without cost to their families.

With this unselfish program in mind, it is the Club's desire that a large attendance be at this gala event—the Shrine Charity Ball.

Marygrove Club Schedule For Sunday Listed

The schedule of the Day of Recollection for members of Marygrove Retreat Club, to be held Sunday, April 4, at St. Thomas the Apostle Church, was announced today.

The opening conference will be held at 2 p. m., followed by a coffee break at 2:45. At 3:15 a Round Robin will begin, dealing with "Modern Trends in the Church Today." A Bible Vigil, stressing vocations, will begin at 4:15. The program will close with Benediction of the Blessed Sacrament.

Father Donald Shiroda, assistant pastor of St. Thomas will conduct the Day of Recollection.

Ever use chicken livers for kebabs? Alternate the livers with squares of bacon and with small mushrooms on skewers. Brush the chicken livers and mushrooms with melted butter or margarine before and during the broiling process.

Curtis

Former Resident Dies

Word was received of the death of a former resident, Harry Strom, 68, Mt. Pleasant, on Saturday. He is survived by his wife, Vivian, a daughter, Mrs. Jane Gibson of Park Forest, Ill., and a son, Harry A. Strom Jr., of Mt. Pleasant. Funeral services were held Tuesday at Mt. Pleasant.

Snow-Mobile Race

A winter sports snow-mobile racing event will be held Sunday, April 4 on South Manistique Lake at 1 p. m. Eighteen trophies will be awarded. The race is sponsored by the business men of Curtis. Plenty of parking space will be available.

Mrs. Luvina Johnson has returned home from Schoolcraft Memorial Hospital, where she was a patient two months.

GLOVES ALWAYS AT HAND
A divided box is a good place in which to store clean gloves in pairs so that they will be ready for wear when you need them.

Two-Day Hair Styling Clinic Opens Sunday

An exciting two-day affair in hair styling and coloring will be held in Escanaba on Sunday and Monday, April 4th and 5th. Heading the program will be the following members of the Upper Peninsula Coiffure Committee: Katherine Kovacevich, chairman, Edward Hurley, styles director, and LaVerne Petersen.

The program will begin on Sunday, April 4 at 10 a. m. at 902 Ludington St. and Monday will start at the same time at the Sherman Hotel.

The UPCC is a Styles Body for all members of the Michigan Cosmetology Association in the Upper Peninsula. This group is made up of cosmetologists who have met certain standards set up by the Michigan Hair Fashion Committee and who have qualified through competition. They are available to all members for instruction in current hair fashions.

The Spring and Summer trend is the Swingheart silhouette. Heads are smaller and napes are shorter in the Swingheart coiffure. Common to all versions of this versatile new trend are a gently rising crown and sides that swing. Brows are clear, or covered with a fringe of bangs. A combination of ruffle curls, gentle waves and smooth sweeps, all the Swingheart interpretations have the look of femininity.

The haircoloring clinic will be under the direction of Charles Morris and Mr. Olivia of Chicago.

HAM REFRIGERATION

Ham, "fully-cooked," "cook-before-eating" or "canned" should be refrigerated as soon as brought home from the retailer. Plan to use the "fully-cooked" or "cook-before-eating" within 5 to 7 days after purchasing. Canned hams will, of course, keep longer, provided they are left in the can unopened and kept under constant refrigeration.

THE SPIRIT OF "My Fair Lady" has truly returned to give elegance to the smartest wear for afternoon and festive "after-five" hours, shown during the recent annual spring revue sponsored by Escanaba's Newcomers Club. From the left are models: Becky Putnam, in a formal of simulated silk shantung, with green bodice and empire waistline outlined with green and white lace applique; Kay Clements, wearing a lined sheath of navy blue crepe with cowl collar and long sleeves, topped by a white laminated sleeveless jacket; Jean Hengesh, whose versatile hand-washable rayon ensemble features a ¾ length coat, with notched collar, repeating the bold print in its lining to match the top of the over-blouse effect dress; Marilyn Davidson, in a gay light blue frock of wash and wear sheer dacron with full skirt, decorated with embroidered eyelet; Barbara Klug, who is wearing the perfect formal for special occasions, white cotton lace, lined with blue, detailed with blue piping which defines the camisole bodice and waistline of the bell skirt. All ensembles were highlighted by beautifully matched accessories. (Daily Press Photos)

Sermon In Living Given By Blind Schaffer Woman

An eloquent sermon in everyday living for all of us who find petty annoyances most disturbing is to be found no farther away than the community of Schaffer, in a visit to the home of Mrs. Thomas LaFleur and her husband.

Mrs. LaFleur is totally blind. She is suffering from the advanced stages of arthritis. And she is a happy, busy woman, enjoying every activity she can manage each day as it comes.

Her story can best be told in the words of Mrs. Clinton E. (Rachel) Groos, Gladstone Rte. 1, who visits the LaFleur home regularly.

Here is Mrs. Groos' "profile in courage" account of her friend, Gladys:

"Gladys Lane and Tom LaFleur were married back in the 20's in the little village of Schaffer near which they now live on a small farm. They have five children, the four older, now married, and the youngest, Ricky, 20, who is serving in the U. S. Navy stationed at St. Thomas, Virgin Islands.

Arthritis began its grip on Gladys more than 20 years ago. As a result her eyesight was completely destroyed and she is confined to a wheel chair. Her husband fixed a special chair for her to get around the house and she 'walks' the chair on wheels from room to room and does her housework. She makes the meals, does the dishes and conducts the family business over the telephone.

You should see her crippled fingers struggling to dial a phone number in her constant darkness. She runs her crooked finger lightly from the "one" hole to the desired number for each of the digits. It's a great effort but she does it and thinks nothing of it.

She has a memory that would put anyone's to shame. She puts things away and re-

Mrs. Thomas LaFleur

members exactly where they are. She can identify what is in different boxes or envelopes by folding down a corner or by a rubber band or a paper clip.

Wide Interests

Many people in her helpless condition would have given up years ago and would have to be waited on, hand and foot. But not Gladys! She has a vital interest in everything that goes on. She loves to go out and to have friends in. She is interested in her clothes and wants to look well dressed when she goes out.

"When she gets a new dress, she wants to know exactly what color it is and she feels every detail. From then on, she finds her own clothes in her closet and knows that this is the blue figured cotton, or that is the red silk, and then she finds earrings to match.

She loves to play cards and she and her husband belong to a card club in the Schaffer area. More often than not, Gladys wins the prize. She has a deck of plastic cards that she has marked in the right hand upper corners with a needle so that she can tell the suit and value of the card. When she plays she fingers each card carefully to learn what she has been dealt, then arranges the suits between her fingers and plays as deftly as anyone. You have only to tell her what has been played on the table and she takes it from there.

No Need for Braille

Gladys does not read Braille. She started learning it years

ago but gave it up. She didn't feel that she would have any use for it. She writes to her son in the service, using a tablet and a ruler as a guide, and even though it is an effort to hold a pen, she writes.

Until a few years ago she did a great deal of knitting, but now she is unable to hold the needles. Just three years ago she knitted slippers for her grandchildren for Christmas gifts. Although she has never seen the youngsters, she visualizes them from description, and she never forgets.

No one feels sorry for Gladys. Her neighbors and friends have only the highest admiration for her efforts to overcome her great handicaps and they enjoy her company and the wonderful spiritual uplift her example gives them.

Extension Vets Get Service Pins

Service pins were presented to nine Upper Peninsula Michigan State University staff members this week. Twenty year pins went to Extension specialists Rick Hartwig of Marquette and Jack Little of Chatham, to Houghton County Extension Director Wallace Keskitalo and to Mrs. Loa Whitfield, formerly attached to the U. P. Extension Center and now assistant director of the State Cooperative Extension Program.

Ten year pins were awarded to County Extension directors John Campana of Munising, Ray B. Gummerson of Newberry and William Muller of St. Ignace and to District Home Economics Agent Dr. Margaret Jacobson of Marquette and County Club Agent August F. Blome of Crystal Falls. Gummerson was recently appointed district community development agent and will move to Marquette.

Mortgage Loan Rackets Bared

LANSING (AP) — Atty. Gen. Frank Kelley charged a group of second-mortgage companies with "shocking instances of illegal and improper activities" and directed moves against three of the companies today. Kelley said a four-month investigation revealed "incredibly high charges for second mortgage loans, grossly misleading come-on advertising, dishonest and unfair dealings with customers" and operations without licenses by salesmen and offices. Subpoenas were in the mail

today against two Detroit firms directing them to appear before the State Corporation and Securities Commission to answer why their licenses should not be suspended or revoked. Kelley said Genesee County Prosecuting Attorney Robert Leonard planned to issue a warrant today charging a Flint firm with operating without proper license.

Widely Advertised

Kelley said the investigations began after a tip from State Employees' Credit Union Manager Louis Ebaugh. "These companies," said Kelley, "advertising on a statewide basis, offer 'cash to home owners in need of money'; they speak of cash to consolidate bills, for modernization work, etc.; they offer to take a second mortgage as collateral for the loan.

"These companies then obtain the money from financial institutions in other states by

assigning mortgage and mortgage notes to them. They then forward the money to the customer."

Kelley said the investigations brought out these types of activity: —A Portland, Mich., couple borrowed \$1,500 from a Detroit firm and found out they obligated themselves to repay \$3,130.80.

—A Genesee County resident borrowed \$1,900 from a Flint company and signed to repay \$3,967.80.

—A Detroit company adver-

tised \$17.42 monthly payments on a \$1,500 loan but in tiny print said "second mortgage slightly higher." The second mortgage payments on a \$1,500 loan were \$52.18 per month for five years.

—One Detroit company has unlicensed branches in Kalamazoo, Muskegon, Saginaw, Flint and Grand Rapids.

—A company with offices in Flint and Detroit has no licenses at all.

Kelley said two Detroit firms are being charged with maintaining branch offices without a license, making substantial misrepresentations to customers, dishonest or unfair dealings and payment of commissions to unlicensed persons.

The Flint firm is charged with operating without a license.

Kelley said he will intervene on behalf of persons suing under the uniform commercial code to have their contracts with some companies revoked.

LOADS OF SPRINGTIME SAVINGS

SUPER VALU

What's Cookin'

A dessert just a little different, and really delicious is —

BANANA FRITTERS

10 to 12 firm, ripe bananas, cut in 2" diagonal pieces. Roll in flour.

Make a batter as follows: Sift together

3 cups all purpose flour	3/4 tsp. salt
2 tsp. baking powder	1/2 cup sugar
Combine	3 well-beaten eggs
7 1/2 cups milk	2 tsp. melted shortening

Add to dry ingredients. Beat until smooth. Dip bananas into batter. Fry in hot fat (400°) until golden brown. Serve with tart apricot jam, a dab of whipped cream and a sprinkling of toasted coconut. Serves 12.

Super Tip — Fritters stay crisp 15 to 20 minutes.

Witness Tells Of Fatal Fire

PONTIAC (AP)—A neighbor testified Wednesday that Harry Belcher read a newspaper and "engaged in small talk" in a hospital shortly after his wife and six children died in a fire Jan. 25.

Dennis Lukasik was the first prosecution witness in the trial of Belcher, charged with first degree murder of his wife, Catherine, 35.

Lukasik, who lives behind the Belcher home, said he was awakened early in the morning by cries of "Help! Fire!" He said he ran to the home, helped Belcher from a first-floor window, and helped firemen extinguish the blaze.

Assistant Prosecutor James Roberts asked "did you see Mr. Belcher at any time grab a hose?"

"No, sir," Lukasik replied.

Lukasik said Belcher complained he was cold and spent most of the time seated in a station wagon. Twice, Lukasik recalled, Belcher said "My wife and kids are upstairs."

Belcher and Lukasik were admitted to a hospital after the fire.

"I was quite concerned as to his emotional reaction to the whole thing," Lukasik testified. "Immediately on entering the hospital he asked for a newspaper . . . and read it briefly."

"For a time we engaged in small talk about disinteresting (sic) things," the witness said.

In This Corner

with Ray Crandall

That strange silence enveloping the Upper Peninsula is caused by the lack of basketballs bouncing on the hardwood floors and the backboards of hundreds of gyms throughout the region . . . There's a lull in sports activity that will continue for several weeks—until you suddenly hear the crack of the starter's gun at the upcoming track and field meets.

The basketball season that just ended was unique in that two of the greatest point producers in Upper Peninsula prep history completed their careers at the same time . . . We're speaking, of course, of Ron Povo of Hermansville and Dom Jacobetti of Negaunee St. Paul . . . Only once before in Upper Peninsula basketball lore did two such gunners burst upon the scene simultaneously.

The last time there was anything approaching the Povo-Jacobetti duo was in 1963 when Pat Groleau of Nahma and Bill Koski of Champion were writing Upper Peninsula scoring headlines . . . Groleau won the U.P. point title that year with a 703 overall total while Koski was close behind with 693 . . . That gave them a combined production of 1,396 points for that historic campaign.

But the greatest bucket barrage of all time in the Peninsula came a few years earlier when Big Irvin Scholtz of Hermansville and Jim Manning of Trout Creek ruled the roost . . . In the 1961 season, Scholtz bombarded the bucket with 785 points and Manning chunked in 757 . . . That's an astounding total of 1,542 points between them . . . Their individual figures are No. 2 and 3 in the all-time single season scoring list.

In the current season, Povo and Jacobetti were almost twin scorers . . . The Hermansville deadeye finished with 742 and the Negaunee star with 741, totaling 1,483 between them.

If that final figure is impressive, consider the amount of points those two players scored in their brilliant four year careers . . . With Jacobetti topping the all-time Upper Peninsula list on a 2,140 total and Povo third in that department with 1,968, their overall combined scoring total is an awesome 4,108 points.

Beat Braves, 4-2

Tiger Pitchers Unlikely To Go Full 9 Innings

LAKELAND, Fla. (AP) — It is unlikely any Detroit Tigers pitcher will hurl a full nine innings in any of the team's remaining exhibition games.

Interim Manager Bob Swift said Wednesday the combination of hot weather and the need to look at his relief pitchers just about rules out any complete games by the mound corps.

"In my mind, I have three starters who can go nine innings right now," Swift said Wednesday after the Tigers edged the Milwaukee Braves 4-2.

"Dave Wickersham, Mickey Lolich and Denny McLain have pitched well in hot weather this past week and I feel they are in shape," Swift continued.

Swift kept Jack Hamilton, Ed Rakow and Billy Graham in Lakeland today to pitch for Syracuse in an exhibition tilt. The Tigers were scheduled to play the New York Mets in St. Petersburg.

"It's nice to see the starters look so strong," Swift said. "But let's face it, the rest of the pitchers need work, too, and time is running out."

Swift still has 17 pitchers on the roster after sending Fritz Fisher to Syracuse on option and returning Glen Hobbie to the same team. Outfielders Purnal Goldy and Mickey Stanley also were optioned to the Tigers' International League farm club early Wednesday.

Billy Hoelt suffered a muscle spasm in his side while pitching in relief of McLain Wednesday and was forced to leave the game. Swift said Hoelt, Johnny Scales and Ron Nischwitz all left-handers, were about even in

their battle for a berth in the bullpen.

It was not immediately known how long Hoelt would be sidelined.

McLain held Milwaukee's powerful attack to three hits in the first seven innings.

He gave up a 2-run homer to Felipe Alou in the sixth but closed out his stint on the mound by striking out three of the last four men he faced.

The Tigers got three of their runs in the first four innings. Off Milwaukee starter Hank Fischer, Dick McAuliffe walked, went to third on a single by Jerry Lumpe and scored when Bill Roman bounced into a double play in the first inning.

Fisher threw the ball into center field in the third inning, allowing McLain, who singled to open the inning, to reach third. McLain crossed the plate as Lumpe grounded out.

A double by Don Demeter and a single by Bill Freehan gave the Tigers their third run in the fourth.

Jim Northrup hit a pinch-home run leading off the seventh inning to close out the scoring.

Kathy Pacing Gal Golfers

QUINCY, Ill. (AP) — Kathy Whitworth continues as the leading money winner of the Ladies Professional Golf Association.

In the early season she has won \$2,535 to take a slim lead over Sandra Haynie, who has won \$2,050, according to the LPGA figures.

Torres Figures He Could Beat Cassius, Floyd

NEW YORK (AP) — Jose Torres talks of fighting Cassius Clay, Joey Giardello and Floyd Patterson. Welterweight king Emile Griffith eyes Giardello's middleweight crown. But the next big fight coming up probably will be a return between Patterson and George Chuvalo.

"We hope to sign Patterson and Chuvalo in a week or so for May 10 or 17 at the Garden," said matchmaker Teddy Brenner today. "Patterson says he wants Chuvalo again and Chuvalo wants Patterson."

Patterson, the former heavyweight champion, whipped the husky Canadian champion in a slugfest at the Garden that touched off the current boxing boom. The 12-rounder drew a standing-room crowd of 19,100 and \$166,423 on Feb. 1.

Torres, who dethroned light-heavyweight champion Willie Pastrano on a ninth-round technical knockout and probably sent the onetime boxing master into retirement, won't be available again until June.

Boxing's latest glamor gladiator plans a month-long vacation in his native Puerto Rico and Mexico. Griffith is heading for a month's holiday in his native Virgin Islands. The welterweight boss has been a busy fighter and he won't fight again until June.

Both champions bore few marks of their triumphs in the championship doubleheader that lured 18,112 fans and a record Garden gate of \$239,556 Tuesday night.

Torres put Pastrano on the floor in the sixth round—the first time in his 13½-year career that the Will of the Wisp had been dropped—and gave him a fierce battering. Griffith decisively outpointed Cuban-born Jose Stable in 15 rounds.

The 28-year-old Torres said he would like to fight Muhammad Ali—heavyweight champion Cassius Clay—Giardello, the middleweight champion, and Patterson in that order.

"I feel I can knock them all out," said Torres Wednesday.

Spahn Sets Sights On New Hill Marks

ST. PETERSBURG, Fla. (AP)

If Warren Spahn wins 20 games for the New York Mets they should relax the rules and rush his left arm to Coopers-town immediately.

Spahn, crowding his 44th birthday, is one of the better stories of baseball's spring training season. He works harder than any Met, with the possible exceptions of Casey Stengel and Yogi Berra. When he isn't pitching, he is helping others in his dual job of pitcher-coach or hitting a home run against the New York Yankees, as he did in a game won by the Mets.

"Do you consider yourself a pitcher or a coach?" a visitor asked.

"A pitcher first and a coach second," he replied. "I am going to be a starting pitcher unless some youngster comes along and chases me out. I like the idea of competing with young people. It has kept me going."

"When the day comes that I know I can't do the job, I'll recognize it. I don't want to knock my head against a brick wall."

"Last year I got off bad at Milwaukee. My record proves I'm always better in the second half but when my time came I wasn't pitching. My timing was messed up, but at the end of the year I was straightened out. Bobby Bragan believed I'd had it. I don't care about his opinion. My job is to prove him wrong."

"Every year is a challenge, this one no more than any other. I sold my services over here to pitch and I'd love to be in there opening day."

Spahn is proud of his work with the young pitchers in the Met training camp and does not anticipate any of the problems that plagued Whitey Ford when he tried the dual role of pitcher-coach for the Yankees last year.

And he is far from ready to call it a career on the mound. He still is shooting at distant goals.

"I came here with one intent — to be a starting pitcher," he said. "There are a lot of things I want to do. Winning 400 games

is one. I have 356 and I know it isn't going to be easy to get 44 more."

"I'd like to break the record for pitchers hitting home runs. I have 33 and I think the record is 36. I'd like to move up in the list of all-time winners. I'd like to get the National League record of 373. I already hold the record

for left-handers. I'd like to get a 14th season as a 20-game winner if possible."

"I want to start and I want to win. But I don't want to be a hanger-on. When I can't pitch I want to stay in the game as a coach or manager. But right now I'd like to pitch opening day."

Wings Seek First Win In Playoff

DETROIT (AP) — Coach Sid Abel figures Detroit has the manpower to stop the Chicago Black Hawks — with or without Bobby Hull — in tonight's opening Stanley Cup semifinal round game.

The Wings, winners of the 1964-65 regular season National Hockey League title, go into the game relaxed, confident and at full strength.

A big question facing Coach Billy Reay and the Hawks is the availability of Hull.

Hull, troubled by an ailing knee since February, has worked out with the Hawks here for two days in preparation for the Cup playoffs. But Reay isn't sure his crack wingman can go all out. And he says he won't run the risk of forcing "the most valuable player in the National Hockey League."

The Wings say they have the momentum to bring Detroit its first Stanley Cup since 1955.

Detroit-Chicago first round Cup matches have become somewhat of an annual affair. Tonight's game opens the third consecutive semifinal series between the two teams.

Detroit stopped the Hawks last year four games to three.

In 1963, the Wings won four games to two.

In both years, however, Abel saw Detroit go against Toronto and lose the Stanley Cup to the Maple Leafs.

Abel plans on four lines against the Hawks. The four lines, plus standout performances from Norm Ullman, Ted Lindsay and rookie goalie Roger Crozier, are credited for the Wings' rush to the regular season title after a slow start.

Abel, Associated Press NHL Coach of the Year, is credited with luring the 39-year-old Lindsay out of retirement. The Detroit club rates Lindsay as a key booster of morale and a steady influence on younger players.

On Hull, Reay probably won't make a final decision until shortly before game time.

While the Wings rested at nearby Toledo, Reay sent the Hawks through two days of workouts at Olympia Stadium. Hull participated in both. But Hull and Reay weren't too pleased with the wingman's efforts.

Hull said "I felt I wasn't going too well."

Reay also has to name his starting goalie for the series. Both Glenn Hall and Denis DeJordy are available.

Chicago and Detroit play here again Sunday night and then go to the Hawks' home ice for games April 6 and April 8.

Amateur Boxer Eyes Pro Ranks

LOS ANGELES (AP) — The brief reign is about over for young Jerry Quarry as the national Golden Gloves heavyweight champion.

The 19-year-old Quarry, from suburban Huntington Park, disclosed today he is turning professional and will apply to the state athletic commission for a license.

The 6-foot, 185-pound Quarry literally blasted his way to the Golden Gloves crown at Kansas City last month. He scored five straight knockouts, a feat unmatched as far as the tournament records show.

Olympic Champ Will Turn Pro

LOS ANGELES (AP) — Olympic gold medal-winning swimmer Donna de Varona, 17, was expected to announce today her decision to leave the amateur ranks for a professional career.

Miss de Varona, of Santa Clara, Calif., winner of two gold medals for the United States in 1964, was due here en route to New York for a television appearance.

On the TV show she will discuss a position with Sports Illustrated magazine and arrangements for bathing suit endorsements.

Allen Is Happy He Was Holdout

By The Associated Press

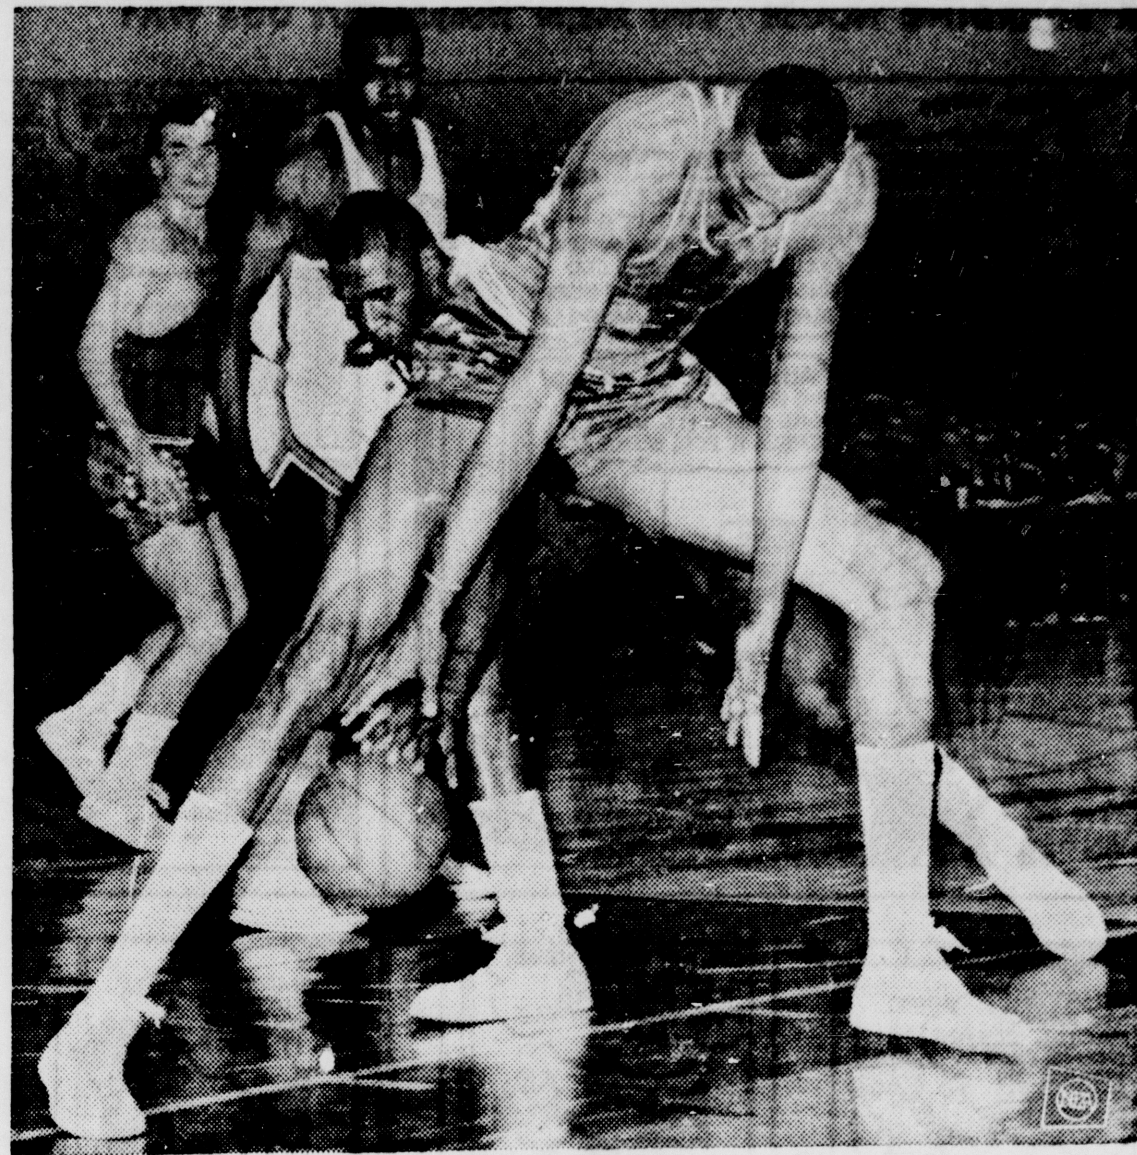

Richie Allen was a happy holdout.

Not happy that the Philadelphia Phillies wouldn't give him what he thought he was worth but happy because he was sitting at home rather than running at spring training camp.

The National League's Rookie of the Year, who finally signed a compromise contract March 15, made the Phillies happy Wednesday, enjoying his best game of the exhibition baseball season in his team's 10-1 trouncing of Cincinnati. He rapped three hits, including his first homer, and drove in three runs.

Allen went into the game with a .130 batting average and four runs batted in, but that meager showing didn't have the 23-year-old third baseman upset.

"I'm glad now that I missed all that time here," he explained. "I feel so much stronger than I did last spring. I didn't say anything about it at

Wilt Chamberlain

Golden Gloves Leader Killed

LAWRENCE, Kan. (AP) —

Charles Calvin Myers, noted for his work with young Golden Gloves boxers in the Kansas City region, and Dr. Aldo Vigilano, a psychologist at the University of Kansas Medical Center, were killed Wednesday night when the doctor's car careened across the median strip of the Kansas Turnpike and crashed into Myers' station wagon.

Myers would have been 64 on Friday. He was a salesman for a wholesale coffee firm in Kansas City and was returning from a business trip to Leavenworth and Lawrence. He was killed immediately.

Dr. Vigilano was 40 and was on the way to his home in Lawrence from the Medical Center in Kansas City, Kan.

Myers had been director of the Kansas City regional Golden Gloves tournament for 10 years and before that coached and trained the Kansas City team in the national tournaments.

He was national president of the Golden Gloves Association in 1961 and directed the 1965 tournament in Kansas City two weeks ago. He had been connected with amateur boxing for almost 50 years, first as a fighter.

Wilt Paces Big Victory

PHILADELPHIA (AP) — "We simply outdefended them, and outshot them . . . and, of course, we did have Wilt Chamberlain."

Coach Dolph Schayes of the Philadelphia 76ers was happily pondering his team's 119-112 victory over the Cincinnati Royals Wednesday night which wrapped up the Eastern Division semifinal playoffs three games to one in the best-of-five series which gave them a shot at the Boston Celtics in the finals.

There was no arguing Chamberlain spelled the difference. Consider: he scored 38 points,

high for the night; had 26 rebounds, also high; blocked 10 Royal shots that seemed headed straight for the basket and handed off five assists.

Cincinnati just couldn't stop him. The three men who took turns trying to guard him committed a dozen fouls and Chamberlain, usually a poor shot at the free-throw line, sank 10 of 16 tries.

"That was the difference right there," said Schayes.

But though Chamberlain was the standout, Schayes said it was a team effort all the way.

The boxscore attests to that. Hal Greer had 25 points, Chet Walker 20, Lucious Jackson 16. Cincinnati didn't go down without fighting led by their great stars, Jerry Lucas, with 35 points, and Oscar Robertson, still favoring a sore right foot, with 24.

The opening game of the best-of-7 Eastern Division final series will be played at Boston Sunday afternoon.

The Western Division final best-of-7 series gets under way Saturday night with Baltimore at Los Angeles.

Dressen Will Leave Hospital

SANTA MONICA, Calif. (AP)

— Manager Charlie Dressen of the Detroit baseball club is scheduled to be discharged Thursday from St. John's Hospital, where he has been confined for three weeks after a heart attack.

The peppery 66-year-old Dressen will continue his recuperation at his home in the fashionable Bel Air section of West Los Angeles.

A hospital spokesman said Dressen may return to the ball club in about two months.

With the exception of his wife, Ruth, Dressen has had virtually no visitors during his stay in the hospital.

Cadillac Honors Slalom Champion

CADILLAC (AP)—This community has set aside Friday as "Greg Schwartz Day" to honor the youth won the national junior slalom event for a second straight year, placed third in the giant slalom and was ninth in downhill competition.

Scouts To Have Business Upturn In 50th Month

DOWAGIAC (AP) — Heritage Timber Buildings, Inc., says it has been selected to supply 18 buildings for use at a 4,000-acre Boy Scout camp being developed in Virginia. Monetary value of the contract, let by the Boy Scouts of America, was not disclosed.

CLEVELAND (AP) — The Glidden Co. said Wednesday it had completed acquisition of Dailey Pickle Co. of Saginaw, Mich., which now will operate as a division in Glidden's foods group.

As part of the deal, Glidden also acquired the Alcon Corp., a small, related operation which makes vinegar for Dailey's pickle processing.

GRAND RAPIDS (AP) — John Handy of Sodas, Mich., was re-elected Wednesday as president of the 3,000-member Great Lakes Cherry Producers Marketing Cooperative, Inc., headquartered here.

Dale Seaguit of Sister Bay, Wis., was elected vice president. Re-elected to their respective posts as treasurer and secretary-manager were Bruce Lyon of Traverse City and B.I. Freeman of Grand Rapids.

Production of coffee from seed to cup requires 24 steps, of which 14 are done by hand

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Bigger and better — maybe even indestructible? — these are the answers you get when you ask: How's business?

Today the economic upswing enters its 50th month. If it continues upward during April — and most signs now point to that as a sure thing — the expansion will have equaled the longevity record for peacetime set in the 1933-37 recovery from the Great Depression. In May a further climb would set a record on its own.

But records already dot the economy. High marks have been made this year in industrial production, personal incomes, retail sales, factory take-home pay, employment, stock prices, corporate profits, cash dividends, cost of living, savings, and personal and public debts. Most of these are good things, a few doubtful.

Plenty Of Problems

True, there is no lack of problems and uncertainties today — Viet Nam, racial strife, threat of a steel strike, dangers of overheating the economy, lagging home building, drain of U.S. gold reserves because of imbalance in international payments.

But barring an explosion of one or more of these simmering

problems, the very momentum of the long-lived era of prosperity should carry the economy to new heights this month and next.

Most government and business economists predict the business upswing will outlast 1965, unless a long steel strike develops. Some say the administration "won't let" a recession develop, using either more tax cuts, increased government spending, or both, to stimulate business at the first sign of faltering.

Pessimists stress that the rate of growth of the economy may slacken after the big spurt in the first quarter just ended.

Optimists stress that at any rate it will keep on growing. An in-between view is that if the rate of growth slows, that might keep the economy healthy, free of excesses, and assure the expansion a longer life than would a more frantic pace.

Steel Sets Record

Here are the latest available figures as the 50th month starts:

Industrial production is 7 per cent higher than a year ago, with autos just having chalked up a record production month and steel tonnage also pouring out as a record.

Personal income is running at around \$510 billion annual rate,

and factory take-home pay is averaging \$5 a week higher than a year ago, with the factory work week the highest since the end of World War II.

Almost two million more persons have nonfarm jobs than this time last year. Jobs for skilled workers are more plentiful, and the supply of eligible workers tightening.

Corporate profits apparently set a new high in the first three months of 1965. Cash dividend payments of \$2 billion in the first two months were 11 per cent higher than in the like period of 1964.

Plans for more business spending for new plants and equipment in coming months have just been expanded again. Consumer spending continues high, and intentions to go on spending appear firm.

DISTANCE COMMUTING

LOUISVILLE (AP) — Not many graduate students travel a longer distance to answer a laboratory class roll call than do Alice Halladay, Frankie Tester and Hubert Crawford.

Their lab meets two days a week in the Kentucky mountains at Jackson, a 350-mile round trip from Louisville. The rest of the week is spent on the campus of the University of Louisville.

When the spring semester ends, the trio will have traveled more than 12,000 miles to and from the laboratory, which was set up to give them experience in social work in the mountains.

Hefty Raises Asked By USW

PITTSBURGH (AP) — The United Steelworkers of America asked the basic steel industry for pay raises that could exceed 65 cents an hour over a three-year period, it was learned today.

The wage demands break down this way:

1. A flat hourly increase of 12.5 cents an hour in the first and third years of a three-year contract.
2. Double time for all overtime.
3. A flat 10 per cent raise for all workers who do not belong to an incentive program.
4. A periodic shortening of the work week from 40 hours to 32.

The emphasis on wages came as a big surprise since David J. McDonald, union president, has been saying for months he wanted total job security for his workers.

A source in the industry, who is close to the talks, said that at first glance the package appeared to represent the views of I. W. Abel, USW secretary-treasurer who has challenged McDonald for the union presidency.

The economic demands were drawn up by Joseph Molony, director of the USW Buffalo, N.Y., district, who ran for vice president on the Abel slate. Abel took charge of the union's steel industry negotiations while McDonald is in California for upcoming contract talks with Kaiser Steel Corp.

NEA Removes Sanctions Against State Of Utah

WASHINGTON — The National Education Association has removed its year-long sanctions from Utah after passage of educational legislation designed to provide the Utah schools with an additional \$24.6 million dollars over the biennium.

Utah's new governor, who had made education a prime plank in his platform, plans to call a special session of the legislature next January to press for an "enrichment" program for education.

Sanctions by the NEA were placed against Utah, at the request of the Utah Education Association last May 1, following two investigations which showed deficiencies—primarily financial—in the Utah schools. Both were ignored by former Gov. George D. Clyde.

The sanctions applied in Utah consisted of asking other teachers to stay out of the state.

ANTIQUE MAILBOX
LONDON (AP) — The Post Office Record department reports that it has found a 100-year-old British mail box on the edge of the Himalayas in Kashmir.
The mail box (the British call them pillar boxes) was exported from London to its 7,000-foot-high perch to serve a British army unit a century ago.
The search for historic boxes, launched recently, has increased the cache of the old boxes from 23 to 130.

State Briefs

CASSOPOLIS (AP) — Cass County voters have approved a proposal to raise the county's 15-mill tax limitation by one mill and freeze the allocation formula affecting individual school districts, county operations, townships and the Lewis Cass Intermediate School District. The vote in special election Tuesday was 1,984 to 1,167.

KALAMAZOO (AP) — Voters

of Kalamazoo County rejected Tuesday, 8,541 to 6,920, a proposed raising of the 15-mill tax limitation by three mills and freezing the allocation formula for schools, county operations and townships.

SPRING LAKE (AP) — A margin of one vote in the affected sector has approved Spring Lake annexation of a Spring Lake Township area embracing approximately 735 residents. The vote Tuesday was 132 to 131 in the area to be annexed. The

combined vote in this Ottawa County village and the remainder of the township was 266 to 192.

TRAVERSE CITY (AP) — Some 60 manufacturers' exhibits are expected May 8 at this city's second annual industrial tool supply show.

MOUNT PLEASANT (AP) — The Central Michigan University R.O.T.C. exhibition drill team will be one of 50 teams competing at the National Cer-

ry Blossom Festival in Washington, D.C. this weekend. The team is returning for the third year. It finished 14th in 1964.

SOUTH HAVEN (AP) — Charles Tait Sr., 69, former South Haven mayor from 1948 to 1956, died at his home here Tuesday night after an apparent heart attack.

CASSOPOLIS (AP) — Former Sheriff's Deputy Jack Greene took up new duties Wednesday as Cassopolis village police

chief. He succeeds Freeborn Kellogg, who resigned.

GRAND HAVEN (AP) — Attorney Calvin Bosman has been named assistant municipal court judge here to fill an unexpired term of Harry Lieffers Jr., who resigned Sept. 11. Bosman must stand election April 5 as a write-in candidate for the post.

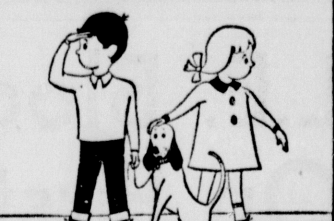

LANSING (AP) — The State Highway Department has scheduled a public hearing April 8 at Zeeland High School on the pro-

posed location of the final 23.5-mile link of I 96 between Holland and Grandville. Estimated cost of the project is \$19.5 million, including right of way costs of \$1.6 million.

QUARTZ VARIETY

Amethyst is a violet, or purple, variety of quartz. Its name is derived from the Greek word meaning "non-intoxicating," in the old belief that this stone protected its owner from strong drink.
